PART I - BUSINESS AND GENERAL INFORMATION

(A) Description of Business

Item 1. Business Development

Prime Media Holdings, Inc. (PRIM or the Company) was originally incorporated on February 6, 1963 as Private Development Corporation of the Philippines and then changed to PDCP Development Bank, Inc. that same year. On June 6, 2000, the Company changed its name to First e-Bank Corporation and then eventually shifted to its current name on October 20, 2003.

Through a Memorandum of Agreement (MOA) executed in 2002, Banco de Oro Unibank, Inc. assumed the servicing of PRIM's deposit liabilities and other banking functions. On December 6, 2002, the Board of Directors of PRIM (BOD) approved the amendment of its Articles of Incorporation (AOI) to change its primary purpose from that of a development bank to a holding company, which would hold investments in the media industry.

On January 26, 2013, the BOD approved the amendment of its AOI extending the corporate life of PRIM by another 50 years or until February 6, 2063. The stockholders of the Company approved and ratified the amendment in a special stockholders' meeting on February 4, 2013. On February 5, 2013, the Company filed the amended AOI with the Securities and Exchange Commission (SEC), which approved such amendment of the AOI on March 4, 2013. However, in accordance with the Revised Corporation Code of the Philippines, which took effect on February 23, 2019, the Company was automatically accorded perpetual existence.

On March 2, 2015, the SEC approved the Corporation's change of principal office address from 3 San Antonio Street, Barrio Kapitolyo, Pasig City to 16th Floor Citibank Tower, 8741 Paseo de Roxas, Makati City.

The Company's current activities comprise mainly of compliance with the Memorandum of Agreement (MOA) by transferring certain assets related to its previous banking operations, to BDO and PDIC. In view of its very minimal operations, the Company gradually retired all its employees by 2010 and instead engages consultants/service providers to service its requirements.

Item 2. Properties

Practically all of the Company's properties, which consisted of bank premises (land, buildings and leasehold rights) and real estate acquired through dacion and foreclosure while it was still a bank, were conveyed to BDO/PDIC pursuant to the MOA. The investment properties with market value of ₱69.88 million in 2017 was sold last September 21, 2018 for ₱51.82 million, inclusive of VAT, in order to use the funds to pay the Company's liabilities and defray its expenses. Please refer to Note 7 of the 2020 Audited Financial Statements (AFS).

Item 3. Legal Proceedings

The Company is a party to certain lawsuits or claims arising from its previous bank operations in the ordinary course of business. However, the Company's management and legal counsel believe that eventual liabilities under these lawsuits or claims, if any, will not have a material effect on the Company's financial status and general corporate standing.

Please see Note 15 of the attached 2020 AFS.

Item 4. Submission of Matters to a Vote of Security Holders

During the Annual Shareholders' Meeting held last 13 October 2021, the following were submitted for approval of the shareholders:

1. Call to order
2. Certification of Quorum
3. Approval of Minutes of the Previous Meeting
4. Approval of Management Report and Audited Financial Statements for the year ending December 31, 2021
5. Ratification of Management's Acts
6. Amendment of the Articles of Incorporation to:
 - (i) Reclassify the Preferred Class A and B Shares with par value of One Peso (Php 1.00) per share, to Common Shares with par value of One Peso (Php 1.00) per share, and delete all provisions relating to the Preferred Class A and B Shares;
 - (ii) Increase the authorized capital stock to Seven Billion Pesos (Php 7,000,000,000.00) divided into Seven Billion (7,000,000,000) Common Shares with a par value of One Peso (Php 1.00) per share;
 - (iii) Delete all provisions relating to banking operations; and
 - (iv) Include a provision prohibiting foreign ownership of shares.
7. Amendment of the By-laws to:
 - (i) delete all provisions relating to banking operations, and
 - (ii) to authorize the holding of virtual meetings by the stockholders, Board of Directors and Board Committees.
8. Approval of the subscription by the major shareholders of Philippine CollectiveMedia Corp. ("PCMC Shareholders") of up to One Billion Six Hundred Seventy Nine Million Nine Hundred Sixty Six Thousand Four Hundred (1,679,966,400) common shares at the minimum subscription price of PhP 1.00 per share, to be issued out of the proposed increase in authorized capital stock, in consideration of the assignment and transfer to the Corporation of Three Hundred Forty Nine Thousand Nine Hundred Ninety Three (349,993) PCMC shares representing 99.9% of the outstanding capital stock of PCMC. The Board of Directors were authorized to determine and approve the final number of the Corporation's shares to be issued, the final subscription price and the other terms and conditions of the foregoing transaction".
9. Waiver by the minority stockholders of the rights or public offer requirement under the PSE Additional Listing Rule.
10. Authority to accept private placements for up to 300,000,000 common shares to be issued at a price equivalent to the par value of PhP 1.00 per share.
11. Election of Directors
12. Appointment of External Auditor
13. Other Matters

Item 6. Management's Discussion and Analysis or Plan of Operation.

The Company has not been actively operating since its primary purpose was changed from a development bank to a holding company in December 2002 other than the continuing activities described in Part I A (1). There are no known trends, events or material commitments that are expected to have a material favorable or unfavorable impact on the financial condition or on income from continuing operations. The Company also signed subscription agreements with its major stockholders for total proceeds of ₱179.00 million, of which ₱70.00 million was received in April 2013 and the balance of ₱109.00 million was collected in May and June 2014. This further bring down the capital deficit and will be the major source of funding for the expenses related to the transfer of the remaining assets to PDIC and BSP. Aside from the transfer of assets to PDIC and BSP, the Company continues to pursue the clean-up of its books and the settlement of its remaining obligations to facilitate possible additional capital infusion from third party investors.

While the Company is still non-operational, it is looking to close an acquisition. Its current activities comprise mainly of transferring asset related to its development bank operation to BDO & PDIC. Thus, the company has continued to incur losses resulting to a capital deficiency of ₱144.19 million and ₱141.31 million as at December 31, 2020 and 2019, respectively. The Stockholders, however, have continued to provide the necessary financial

support to sustain company operations. The stockholders converted their preferred stock of ₱48.60 million into common stock in 2016 and converted their advances of ₱600.50 million to additional capital in 2014 and infused capital aggregate ₱119.00 million in 2014 and 2013 to reduce capital deficiency.

The Company undergone an equity restructuring to reduce capital deficiency.

In 2021, the Company carried on with its efforts to pursue prospective transactions that could revitalize the Company and revert to an operating status. The Company initially signed a Memorandum of Understanding with New Era Empire Realty Corp. with the objective of working together to revitalize the Corporation by engaging in new businesses that may include commercial and residential real estate, hospitality; media and entertainment, gaming, Philippine Offshore Gaming Operators (POGO) allied services, and Fintech. The parties eventually decided to amend the MOU to proceed with a more definite memorandum of agreement to jointly explore businesses in gaming and real estate development.

In addition, the Company likewise entered into a Memorandum of Agreement (2022 MOA) with the majority stockholders of a mass media entity, Philippine CollectiveMedia Corporation (“PCMC Shareholders”), wherein the PCMC Shareholders shall jointly subscribe to 1,679,966,400 common shares of the Company to be paid in the form of PCMC shares in order to obtain the business, assets and ownership of PCMC. After the transaction, the PCMC Shareholders will jointly gain control and majority ownership of approximately 70% of outstanding capital stock of the Company. The parties are currently pursuing actions to meet the closing conditions under the 2022 MOA. With PCMC’s national franchise, the Company may use this as leverage to provide other content providers an avenue to broadcast their contents regionally and nationwide for profit.

Explanations for the material changes in the Company’s accounts between 2021 and 2020 are as follows:

Statement of Financial Position

	Audited		Increase (Decrease)	
	2021	2020	Amount	%
	<i>(in PhP Millions)</i>			
Assets	₱48.75	₱54.87	(₱6.12)	(11.15%)
Liabilities	193.90	199.06	(5.16)	(2.59%)
Stockholders’ Equity	(145.15)	(144.19)	(0.96)	(0.66%)

The Company’s total Assets of ₱48.75 million declined by ₱6.12 million or 11.15% compared with the same period last year. The movement in total Assets is attributable to the following:

- Cash balance of ₱7.11 million is lower by ₱1.12 million compared with the same period last year. The significant decrease is mainly attributable to payments of the Company’s general and administrative expenses.
- Waiver of interest receivable on loans from Marcventures Mining and Development Corporation (MMDC), an affiliated company, amounting to ₱5.14 million during the year, resulted to the decrease in receivables by ₱5.52 million. The loan agreement bears an interest of 10% per annum.
- The increase in Investment in a club share is mainly due to recognition of the fair value changes amounting to ₱0.75 million during the year.

- Decrease in equipment of ₱0.33 million is attributed to the depreciation recognized for the year. No addition and/or disposal was made during the year.

The Company's total Liabilities of ₱193.90 million declined by ₱5.16 million or 2.59% compared with the same period last year. The movement in total Liabilities is attributable to the following:

- Reversal of long-outstanding payables amounting to ₱9.17 million during the year. These payables were assessed that will no longer be settled.
- Cash receipts during the year totaling ₱2.40 million from Bulaong Enterprises, Inc. pursuant to the compromise agreement for a legal case. This represents partial settlement out of the ₱17.0 million settlement fee (exclusive of ₱1.62 million interest), as indicated in the agreement. As the subject property involved in the compromise agreement is included in the list of properties for transfer to PDIC pursuant to the 12 September 2002 Memorandum of Agreement among the Company, PDIC and BDO, collections were accounted for as liability.
- Accrual and subsequent billings from Ocampo & Manalo Law Firm and Andres Padernal & Paras Law Firm amounting to ₱1.53 million and ₱0.01 million, respectively, were recognized.

Capital deficiency is higher by ₱0.96 million compared with same period last year. The Company incurred a net loss of ₱1.71 million and recognized ₱0.75 million gain on fair value changes on its investment in a club share, which net movement resulted to the increase in capital deficiency.

Results of Operations

	Audited		Increase (Decrease)	
	2021	2020	Amount	%
	<i>(in PhP Millions)</i>			
Income	₱9.18	₱2.67	₱6.51	244.30%
Expenses	10.79	5.59	5.20	93.12%

The Company's operating results reflected a net loss of ₱1.71 million and ₱2.98 million in 2021 and 2020, respectively. Comparing with the same period last year, there is a huge jump of ₱1.27 million or 42.60%. The significant changes were mainly due to the following:

- Reversal of long-outstanding payables that will no longer be settled amounting to ₱9.17 million resulted to the increase in income.
- Provision of impairment loss recognized during the year related to the waiver of interest receivable on loans from MMDC amounting to ₱5.14 million.
- Professional fee decreased by ₱0.61 million or equivalent to 17.67%, primarily due to decrease in payments of legal fees.
- Taxes and licenses for the year amounting to ₱0.17 million is lower by ₱0.10 million compared with same period last year.
- Director's fees increased by ₱0.55 million or 100.00% due to the board meetings held during the year.

- Decrease in Outside services by ₱0.16 million is due to the postponement of the publication of Annual Stockholder's Meeting.

Explanations for the material changes in the Company's accounts between 2020 and 2019 are as follows:

Statement of Financial Position

	Audited		Increase (Decrease)	
	2020	2019	Amount	%
	<i>(in PhP Millions)</i>			
Assets	₱54.87	₱54.17	₱0.70	1.29%
Liabilities	199.06	195.48	3.58	1.83%
Stockholders' Equity	(144.19)	(141.31)	(2.88)	2.04%

The Company's total Assets of ₱54.87 million increased by ₱0.70 million or 1.29% compared with the same period last year. The movement in total Assets is attributable to the following:

- Cash balance of ₱8.23 million is lower by ₱1.80 million compared with the same period last year. The significant decrease is mainly attributable to payments of the Company's general and administrative expenses.
- Accrual of interest income from an outstanding loans receivable from MMDC, an affiliated company, amounting to ₱2.60 million during the year, resulted to the increase in receivables by ₱2.61 million. The loan agreement bears an interest of 10% per annum.
- The increase in Investment in a club share is mainly due to recognition of the fair value changes amounting to ₱0.10 million during the year.
- Decrease in equipment of ₱0.33 million is attributed to the depreciation recognized for the year. No addition and/or disposal was made during the year.

Cash receipts during the year totaling ₱10.80 million from Bulaong Enterprises, Inc. pursuant to the compromise agreement for a legal case, resulted to the increase in Liabilities. This represents partial settlement out of the ₱17.0 million settlement fee (exclusive of ₱1.62 million interest), as indicated in the agreement. As the subject property involved in the compromise agreement is included in the list of properties for transfer to PDIC pursuant to the 12 September 2002 Memorandum of Agreement among the Company, PDIC and BDO, collections were accounted for as liability.

Capital deficiency is higher by ₱2.88 million compared with same period last year. The Company incurred a net loss of ₱2.98 million and recognized ₱0.10 million gain on fair value changes on its investment in a club share, which net movement resulted to the increase in capital deficiency.

Results of Operations

	Audited		Increase (Decrease)	
	2020	2019	Amount	%
	<i>(in PhP Millions)</i>			
Income	₱2.67	₱3.58	(₱0.91)	(25.50%)
Expenses	5.59	4.50	1.09	24.25%

The Company's operating results reflected a net loss of ₱2.98 million and ₱0.99 million in 2020 and 2019, respectively. Comparing with the same period last year, there is a huge jump of ₱1.99 million or 200.03%. The significant changes were mainly due to the following:

- The Company's lease agreement with MMDC for transportation equipment, had expired last October 2019, which resulted to the decline in rental income by ₱0.91 million.
- Professional fee decreased by ₱1.41 million or equivalent to 70.22%, primarily due to increase in payments of legal fees.
- Taxes and licenses for the year amounting to ₱0.10 million is lower by ₱0.33 million compared with same period last year.
- Lower insurance expense for the year by ₱0.28 million or 38.51% compared with same period of last year.
- Increase in Outside services by ₱0.44 million is due to the postponement of the publication of Annual Stockholder's Meeting.

Explanations for the material changes in the Company's accounts between 2019 and 2018 are as follows:

Statement of Financial Position

	Audited		Increase (Decrease)	
	2019	2018	Amount	%
	<i>(in PhP Millions)</i>			
Assets	₱54.17	₱46.58	₱7.59	16.29%
Liabilities	195.48	187.30	8.18	4.37%
Stockholders' Equity	(141.31)	(140.70)	(0.59)	0.42%

The Company's total Assets of ₱54.17 million surged by ₱7.59 million or 16.29% compared with the same period last year. The movement in total Assets is attributable to the following:

- Cash balance of ₱10.02 million is higher by ₱4.42 million compared with the same period last year. The significant increase is mainly due to the receipt of cash from Bulaong Enterprises, Inc. pursuant to the compromise agreement for a legal case, which as at December 31, 2019, totaled ₱8.20 million. Payments for general and administrative expenses offset the increase in cash.
- Accrual of interest income from an outstanding loans receivable from MMDC, an affiliated company, amounting to ₱2.60 million during the year, resulted to the increase in receivables by ₱2.77 million. The loan agreement bears an interest of 10% per annum.
- The increase in Investment in a club share is mainly due to recognition of the fair value changes amounting to ₱0.40 million during the year.
- Decrease in equipment of ₱0.34 million is attributed to the depreciation recognized for the year. No addition and/or disposal was made during the year.

Cash receipts during the year totaling ₱8.20 million from Bulaong Enterprises, Inc. pursuant to the compromise agreement for a legal case, resulted to the increase in Liabilities. This represents partial settlement out of the ₱17.00 million settlement fee (exclusive of ₱1.62 million interest), as indicated in the agreement. The subject property involved in the

compromise agreement is included in the list of properties for transfer to PDIC pursuant to the 12 September 2002 Memorandum of Agreement among the Company, PDIC and BDO, hence, collections were accounted for as liability.

Capital deficiency is higher by ₱0.59 million compared with the same period last year. The Company incurred a net loss of ₱0.99 million and recognized ₱0.40 million gain on fair value changes on its investment in a club share, which movement resulted to the increase in capital deficiency.

Results of Operations

	Audited		Increase (Decrease)	
	2019 <i>(in PhP Millions)</i>	2018	Amount	%
Income	₱3.58	₱1.82	₱1.76	96.58%
Expenses	4.50	35.77	(31.28)	(87.43%)

The Company's operating results reflected a net loss of ₱0.99 million and ₱24.57 million in 2019 and 2018, respectively. Comparing with the same period last year, there is a huge drop of ₱23.58 million or 95.96%. The significant changes were mainly due to the following:

- The increase in income is mainly due to the interest accrued during the year, from the outstanding loans receivable from MMDC. The said loan bears an interest of 10% annually. On the other hand, the Company's lease agreement with MMDC, for the lease of the transportation equipment, has expired last October 2019, which resulted to the decline in rental income.
- Professional fee decreased by ₱0.58 million or equivalent to 22.44%, primarily due to decrease in payments of legal fees.
- Taxes and licenses for the year amounting to ₱0.43 million is lower by ₱1.02 million compared with same period last year. The Company paid real property taxes last year for its property located in Legazpi totalling ₱0.77 million, which caused last year's expense to be significantly higher compared with the current year.
- Association dues of ₱0.07 million is lower by ₱2.48 million compared with the same period last year. The Company paid its association dues (including those in arrears) to Landco Business Park last year, concerning the Legazpi property, which resulted to higher expense than the current year.
- The increase in Representation expenses by ₱0.91 million is due to payment of representation fees to legal counsels for pending cases involving the company.
- Other expenses increased by ₱1.08 million due to recognition of other miscellaneous expense and representation expenses.
- Last year's loss on sale of investment properties resulted from the sale of the Company's Legaspi Property in favor of Pacific Mall Corporation. The sale resulted to a loss of ₱24.90 million.

INDEPENDENT AUDITORS' REPORT

The Stockholders and the Board of Directors
Prime Media Holdings, Inc.
16th Floor, BDO Towers Valero
8741 Paseo de Roxas
Makati City

Opinion

We have audited the accompanying financial statements of Prime Media Holdings, Inc. (the Company), a subsidiary of RYM Business Management Corp., which comprise the statements of financial position as at December 31, 2021 and 2020, and the statements of comprehensive income, statements of changes in equity and statements of cash flows for the years ended December 31, 2021, 2020, and 2019, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2021 and 2020, and its financial performance and its cash flows for the years ended December 31, 2021, 2020, and 2019 in accordance with Philippine Financial Reporting Standards (PFRS).

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSA). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to the audit of the financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 1 to the financial statements which indicates that the Company is exploring new business opportunities. Its current activities comprise mainly of transferring assets related to its previous development bank operations to Banco de Oro Unibank, Inc. (BDO) and Philippine Deposit Insurance Corporation (PDIC) in accordance with the Memorandum of Agreement (MOA) among the parties. Thus, the Company continuously incurs losses resulting in a capital deficiency amounting to ₱145.1 million and ₱144.2 million as at December 31, 2021 and 2020, respectively. These events indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. The actions being taken by the Company to address this matter are discussed in Note 1. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements as at and for the year ended December 31, 2021. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Stockholders' Commitment to Support the Company

The Company relies on its stockholders to sustain its operations and settle its liabilities. The ability of the Company to continue as a going concern depends primarily on the financial capacity and commitment of the stockholders. Hence, this is of significance to our audit. We obtained a letter of financial support from the Parent Company and assessed its financial capacity, and reviewed management's disclosures on actions being taken by the stockholders and underlying documents. Further disclosures are included in Note 1 to the financial statements.

Estimated Liabilities

As discussed in Note 9, the Company has estimated liabilities amounting to ₱164.3 million and ₱161.9 million as at December 31, 2021 and 2020, respectively, primarily related to its previous development banking operations. This matter is of significance to our audit because it involves the use of estimates. We have reviewed the reasonableness of management's estimates by doing independent calculations of the estimated costs to be incurred in the future and the related terms of the MOA. Further disclosures are included in Note 9.

Other Information

Management is responsible for the other information. The other information comprises the information included in the SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A (Annual Report) and Annual Report distributed to stockholders for the year ended December 31, 2021, but does not include the financial statements and our auditors' report thereon. The SEC Form 20-IS, SEC Form 17-A and Annual Report distributed to stockholders for the year ended December 31, 2021 are expected to be made available to us after the date of this auditors' report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audits or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation of the financial statements in accordance with PFRS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, these could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with PSA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audits.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditors' report is Pamela Ann P. Escudro.

NOTES TO FINANCIAL STATEMENTS

1. Corporate Information

Prime Media Holdings, Inc. (the Company) was originally incorporated and registered with the Philippine Securities and Exchange Commission (SEC) on February 6, 1963 as Private Development Corporation of the Philippines. In October 2003, the SEC approved the amendment of the Company's Articles of incorporation, changing its primary purpose from a development bank to a holding company. On March 4, 2013, the SEC approved the extension of the Company's corporate life for another 50 years. However, in accordance with the Revised Corporation Code of the Philippines, effective February 23, 2019, the Company was automatically accorded perpetual existence.

On November 24, 2021 the SEC approved the amendment of the Company's Articles of Incorporation covering the following:

- Deletion of all provisions relating to banking operations; and
- Inclusion of a provision prohibiting foreign ownership

On July 28, 2021 the Board of Directors (BOD) approved the amendment of the Company's Articles of Incorporation covering the following:

- Reclassification of the Preferred Class A and B Shares at ₱1 par value a share, to Common Shares with ₱1 par value share, and deletion of all provisions relating to Preferred Class A and B Shares; and
- Increase in authorized capital stock to ₱7.0 billion divided into 7,000,000 Common Shares at ₱1 par value a share

The stockholders approved the amendment on October 13, 2021. As at April 12, 2022, the application for the amendment of Articles of Incorporation for the reclassification of Preferred Class A and B Shares has been submitted to the SEC.

On July 9, 1964, the Philippine Stock Exchange, Inc. (PSE) approved the public listing of the Company's shares of stock. As at December 31, 2021, there are 663,713,458 Company shares that are publicly listed.

The Company is a subsidiary of RYM Business Management Corp. (RYM or the Parent Company), a holding company registered and domiciled in the Philippines.

On September 12, 2002, the Company agreed to transfer its assets and liabilities arising from its development bank operations to Banco de Oro Unibank, Inc. (BDO) and Philippine Deposit Insurance Corporation (PDIC) under a Memorandum of Agreement (MOA). As at December 31, 2021 and 2020, the Company has liabilities amounting to ₱164.3 million and ₱161.9 million, respectively, arising from the MOA which includes estimated transfer taxes and registration fees related to the transfer of assets to BDO and PDIC and other related liabilities (see Note 9).

The Company's registered office and principal place of business is at 16th Floor, BDO Towers Valero, 8741 Paseo de Roxas, Makati City.

The financial statements of the Company as at December 31, 2021 and 2020 and for the years ended December 31, 2021, 2020 and 2019 were approved and authorized for issuance by the BOD on April 12, 2022.

Status of Operations

The Company's current activities comprise mainly of compliance with the MOA by transferring assets related to its previous development bank operations, to BDO and PDIC. Thus, the Company continued to incur losses resulting in a capital deficiency of ₱145.1 million and ₱144.2 million as at December 31, 2021 and 2020, respectively.

RYM, the Company's majority stockholder, continues to provide the necessary financial support to sustain the Company's operations. In order to reduce capital deficiency, the Company allowed certain stockholders to (i) convert preferred stock amounting to ₱34.2 million into common stock in 2016, (ii) convert advances amounting to ₱600.5 million to additional capital in 2014 and (iii) infuse capital aggregating ₱179.0 million in 2014 and 2013. The Company implemented an equity restructuring to offset additional paid-in capital (APIC) of ₱2,114.9 million against deficit which was approved by the SEC on March 23, 2018.

In 2021, the Company carried on with its efforts to pursue prospective transactions that could revitalize the Company, revert to an operating status, and reduce its capital deficiency.

Transaction with New Era Empire Realty Corp.

On March 17, 2021, the Company initially signed a Memorandum of Understanding with New Era Empire Realty Corp. with the objective of working together to revitalize the Company by engaging in new businesses that may include commercial and residential real estate, hospitality; (b) media and entertainment, (c) gaming, Philippine Offshore Gaming Operators (POGO) allied services, and Fintech.

On July 28, 2021, the parties eventually decided to amend the MOU to proceed with a more definite memorandum of agreement to jointly explore businesses in gaming and real estate development.

Transaction with Philippine CollectiveMedia Corporation

On July 30, 2021, the Company likewise entered into a Memorandum of Agreement with the majority stockholders of a mass media entity, Philippine CollectiveMedia Corporation ("PCMC Shareholders"), wherein the PCMC Shareholders shall jointly subscribe to 1,679,966,400 common shares of the Company to be paid in the form of PCMC shares in order to obtain the business, assets and ownership of PCMC. Upon the execution of the transaction, the PCMC Shareholders will jointly gain control and majority ownership of approximately 70% of the Company's outstanding capital stock.

With PCMC's national franchise, the Company may use this as a leverage to provide other content providers an avenue to broadcast their contents, regionally and nationwide, for profit. Aside from venturing into the active business of mass media, the Company likewise intends to sell its remaining assets in order to address the Company's capital deficiency and negative equity, and non-operation status.

On October 13, 2021, the stockholders approved the subscriptions by the major stockholders of PCMC to 1,679,966,400 common shares to be issued out of the proposed increase in authorized capital stock of the Company, in consideration of the assignment and transfer of PCMC shares representing 99.9% of the outstanding capital stock of PCMC.

The parties are currently pursuing actions to meet the closing conditions of the agreement.

Management believes that with these actions taken, the Company can continue as a going concern. Accordingly, the financial statements were prepared on a going concern basis.

2. Summary of Significant Accounting Policies

Basis of Preparation

The financial statements have been prepared in compliance with the Philippine Financial Reporting Standards (PFRS) issued by the Philippine Financial Reporting Standards Council and adopted by the SEC, including SEC pronouncements. This financial reporting framework includes PFRS, Philippine Accounting Standards (PAS) and Philippine Interpretations from International Financial Reporting Interpretations Committee (IFRIC).

The accounting policies adopted are consistent with those of the previous financial year.

Measurement Bases

The financial statements are presented in Philippine Peso, which is also the Company's functional currency. All amounts represent absolute values unless otherwise stated.

The financial statements have been prepared on a historical cost basis, except for investment in a club share which was classified as financial asset at fair value through other comprehensive income (FVOCI). Historical cost is generally based on the fair value of the consideration given in exchange for an asset and the fair value of the consideration received in exchange for incurring liability.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the transaction date. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

The Company uses observable market data to a possible extent when measuring the fair value of an asset or a liability. Fair values are categorized into different levels in a fair value hierarchy based on inputs used in the valuation techniques as follows:

- Level 1 - Quoted (unadjusted) market prices in active market for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Further information about the assumptions made in measuring fair values is included in Notes 7 and 15.

Amended PFRS Issued But Not Yet Effective

Relevant amended PFRS which are not yet effective for the year ended December 31, 2021 and have not been applied in preparing the financial statements are summarized below.

Effective for annual periods beginning on or after January 1, 2022:

- Amendments to PFRS 3, *Reference to Conceptual Framework* – The amendments will replace the reference of PFRS 3 from the 1989 Framework to the current 2018 Conceptual Framework. The amendments include an exception that specifies that, for some types of liabilities and contingent liabilities, an entity applying PFRS 3 should refer to PAS 37, *Provisions, Contingent Liabilities and Contingent Assets*, or IFRIC 21, *Levies*, instead of the Conceptual Framework. The requirement will ensure that the liabilities recognized in a business combination will remain the same as those recognized applying the current requirements in PFRS 3. The amendments also clarified that an acquirer shall not recognize contingent assets acquired in a business combination. The amendments should be applied prospectively.
- Amendments to PAS 16, *Property, Plant and Equipment - Proceeds Before Intended Use* – The amendments prohibit deducting from the cost of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for its intended use. Instead, the proceeds and related costs from such items shall be recognized in profit or loss. The amendments must be applied retrospectively to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented when an entity first applies the amendments.
- Amendments to PAS 37, *Onerous Contracts - Cost of Fulfilling a Contract* – The amendments clarify that for the purpose of assessing whether a contract is onerous, the cost of fulfilling a contract comprises both the incremental costs of fulfilling that contract and an allocation of costs directly related to contract activities. The amendments apply to contracts existing at the date when the amendments are first applied. At the date of initial application, the cumulative effect of applying the amendments is recognized as an opening balance adjustment to retained earnings or other component of equity, as applicable. Accordingly, the comparatives are not restated. Earlier application is permitted.
- Annual Improvements to PFRS 2018 to 2020 Cycle:
 - Amendment to PFRS 1, *First-time Adoption of Philippine Financial Reporting Standards - Subsidiary as a First-time Adopter* – The amendment permits a subsidiary that becomes a first-time adopter later than its parent and measures its assets and liabilities in accordance with paragraph D16 (a) of PFRS 1 to measure cumulative translation differences for all

foreign operations using the amounts reported by its parent, based on the parent's date of transition to PFRS. Earlier application of the amendment is permitted.

- Amendments to PFRS 9, *Financial Instruments - Fees in the '10 per cent' Test for Derecognition of Financial Liabilities* – The amendment clarifies which fees an entity shall include when it applies the '10 per cent' test in assessing whether to derecognize a financial liability (i.e. whether the terms of a new or modified financial liability is substantially different from the terms of the original financial liability). These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or the lender on the other's behalf. The amendment applies to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applied the amendments. Earlier application is permitted.

Effective for annual periods beginning on or after January 1, 2023 -

- Amendments to PAS 1, *Classification of Liabilities as Current or Non-current* – The amendments clarify the requirements for an entity to have the right to defer settlement of the liability for at least 12 months after the reporting period. The amendments also specify and clarify the following: (i) an entity's right to defer settlement must exist at the end of the reporting period, (ii) the classification is unaffected by management's intentions or expectations about whether the entity will exercise its right to defer settlement, (iii) how lending conditions affect classification, and (iv) requirements for classifying liabilities where an entity will or may settle by issuing its own equity instruments. The amendments must be applied retrospectively. Earlier application is permitted.
- Amendments to PAS 1 and PFRS Practice Statement 2, *Disclosure Initiative – Accounting Policies* – The amendments require an entity to disclose its material accounting policies, instead of its significant accounting policies and provide guidance on how an entity applies the concept of materiality in making decisions about accounting policy disclosures. In assessing the materiality of accounting policy information, entities need to consider both the size of the transactions, other events or conditions and its nature. The amendments clarify (1) that accounting policy information may be material because of its nature, even if the related amounts are immaterial, (2) that accounting policy information is material if users of an entity's financial statements would need it to understand other material information in the financial statements, and (3) if an entity discloses immaterial accounting policy information, such information should not obscure material accounting policy information. In addition, PFRS Practice Statement 2, *Making Materiality Judgements*, is amended by adding guidance and examples to explain and demonstrate the application of the 'four-step materiality process' to accounting policy information. The amendments should be applied prospectively. Earlier application is permitted.
- Amendments to PAS 8, *Definition of Accounting Estimates* – The amendments clarify the distinction between changes in accounting estimates and changes in accounting policies, and the correction of errors. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty". An entity develops an accounting estimate if an accounting policy requires an item in the financial statements to be measured in a way that involves measurement uncertainty. The amendments clarify that a change in accounting estimate that results from new information or new developments is not a correction of an error, and that the effects of a change in an input or a measurement technique used to develop an accounting estimate are changes in accounting estimates if they do not result from the correction of prior period errors. A change in an

accounting estimate may affect only the profit or loss in the current period, or the profit or loss of both the current and future periods. Earlier application is permitted.

- Amendments to PAS 12, *Deferred Tax Related Assets and Liabilities from a Single Transaction* – The amendments require companies to recognize deferred tax on transactions that, on initial recognition, give rise to equal amounts of taxable and deductible temporary differences. Earlier application is permitted.

Under prevailing circumstances, the adoption of the foregoing amended PFRS is not expected to have any material effect on the financial statements of the Company. Additional disclosures will be included in the financial statements, as applicable.

Financial Assets and Liabilities

Date of Recognition. The Company recognizes a financial asset or a financial liability in the statements of financial position when it becomes a party to the contractual provisions of a financial instrument. In the case of a regular way purchase or sale of financial assets, recognition and derecognition, as applicable is done using settlement date accounting.

Initial Recognition and Measurement. Financial instruments are recognized initially at fair value, which is the fair value of the consideration given (in case of an asset) or received (in case of a liability). The initial measurement of financial instruments, except for those designated at fair value through profit or loss (FVPL), includes transaction cost.

“Day 1” Difference. Where the transaction price in a non-active market is different from the fair value of other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable market, the Company recognizes the difference between the transaction price and fair value (a “Day 1” difference) in profit or loss. In cases where there is no observable data on inception, the Company deems the transaction price as the best estimate of fair value and recognizes “Day 1” difference in profit or loss when the inputs become observable or when the instrument is derecognized. For each transaction, the Company determines the appropriate method of recognizing the “Day 1” difference.

Classification. The Company classifies its financial assets at initial recognition under the following categories: (a) financial assets at FVPL, (b) financial assets at amortized cost, and (c) financial assets at FVOCI. Financial liabilities, on the other hand, are classified as either financial liabilities at FVPL or other financial liabilities at amortized cost. The classification of a financial instrument largely depends on the Company’s business model.

As at December 31, 2021 and 2020, the Company does not have financial assets and liabilities at FVPL.

Financial Assets at Amortized Cost. A financial asset shall be measured at amortized cost if both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial recognition, financial assets at amortized cost are subsequently measured at amortized cost using the effective interest method, less allowance for impairment, if any. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees that are an integral part of the effective interest rate. Gains and losses are recognized in profit or loss when the financial assets are derecognized and through amortization process. Financial assets at amortized cost are included under current assets if realizability or collectability is within 12 months after the reporting period. Otherwise, these are classified as noncurrent assets.

As at December 31, 2021 and 2020, the Company's cash, receivables (excluding advances to officers, employees and service providers) and due from related parties are classified under this category.

Financial Assets at FVOCI. Equity securities which are not held for trading may be irrevocably designated at initial recognition under the FVOCI category.

Financial assets at FVOCI are initially measured at fair value plus transaction costs. After initial recognition, financial assets at FVOCI are measured at fair value with unrealized gains or losses recognized in other comprehensive income (OCI) and are included under "Other comprehensive income" account in the equity section of the statements of financial position. These fair value changes are recognized in equity and are not reclassified to profit or loss in subsequent periods. On disposal of these equity securities, any cumulative unrealized valuation gains will be reclassified to retained earnings.

As at December 31, 2021 and 2020, the Company's investment in a club share of Valley Golf & Country Club is classified under this category.

Financial Liabilities at Amortized Cost. Financial liabilities are categorized as financial liabilities at amortized cost when the substance of the contractual arrangement results in the Company having an obligation either to deliver cash or another financial asset to the holder, or to settle the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of its own equity instruments.

These financial liabilities are initially recognized at fair value less any directly attributable transaction costs. After initial recognition, these financial liabilities are subsequently measured at amortized cost using the effective interest method. Amortized cost is calculated by taking into account any discount or premium on the issue and fees that are an integral part of the effective interest rate.

As at December 31, 2021 and 2020, the Company's accrued expenses and other current liabilities (excluding statutory payable) and due to a related party are classified under this category.

Reclassification of Financial Assets

The Company reclassifies its financial assets when, and only when, it changes its business model for managing those financial assets. The reclassification is applied prospectively from the first day of the first reporting period following the change in the business model (reclassification date).

For a financial asset reclassified out of the financial assets at amortized cost category to financial assets at FVPL, any gain or loss arising from the difference between the previous amortized cost of the financial asset and fair value is recognized in the statements of comprehensive income.

For a financial asset reclassified out of the financial assets at amortized cost category to financial assets at FVOCI, any gain or loss arising from a difference between the previous amortized cost of the financial asset and fair value is recognized in OCI.

Impairment of Financial Assets at Amortized Cost

The Company records an allowance for expected credit loss based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive. The difference is then discounted at an approximation to the asset's original effective interest rate.

Derecognition of Financial Assets and Liabilities

Financial Assets. A financial asset (or where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized by the Company when:

- the right to receive cash flows from the asset has expired;
- the Company retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a "pass-through" arrangement; or
- the Company has transferred its right to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the assets, or (b) has neither transferred nor retained substantially all the risk and rewards of the assets, but has transferred control over the asset.

When the Company has transferred its right to receive cash flows from an asset or has entered into a pass-through arrangement, and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Company's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset, if any, is measured at the lower of original carrying amount of the asset and the maximum amount of consideration that the Company could be required to pay.

Financial Liabilities. A financial liability is derecognized when the obligation under the liability is discharged, or cancelled or has expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of the new liability, and the difference in the respective carrying amount is recognized in profit or loss.

Offsetting Financial Assets and Liabilities

Financial assets and liabilities are offset and the net amount is reported in the statements of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously. This is not generally the case with master netting agreements, and the related assets and liabilities are presented gross in the statements of financial position.

Classification of Financial Instrument between Liability and Equity

A financial instrument is classified as liability if it provides for a contractual obligation to:

- Deliver cash or another financial asset to another entity;
- Exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavorable to the Company; or
- Satisfy the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of own equity shares.

If the Company does not have an unconditional right to avoid delivering cash or another financial asset to settle its contractual obligation, the obligation meets the definition of a financial liability.

Other Current Assets

This account mainly consists of creditable withholding taxes (CWT), excess of input value-added tax (VAT) over output VAT and prepayments.

CWT. CWT represents the amount withheld by the Company's customers in relation to its income. CWT can be utilized as payment for income taxes provided that these are properly supported by certificates of creditable tax withheld at source subject to the rules on Philippine income taxation. CWT is stated at estimated net realizable value.

VAT. Revenues, expenses and assets are generally recognized net of the amount of VAT, except:

- where the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the tax is recognized as part of the cost of acquisition of the asset or as part of the expense item, as applicable; and
- receivables and payables that are stated with the amount of tax included.

The net amount of VAT recoverable from the taxation authority is included as part of "Other current assets" account in the statements of financial position.

Prepayments. Prepayments are expenses not yet incurred but paid in advance. Prepayments are apportioned over the period covered by the payment and charged to the appropriate account in profit or loss when incurred. Prepayments that are expected to be realized for no more than 12 months after the reporting period are classified as current asset. Otherwise, these are classified as noncurrent asset.

Equipment

Equipment are stated at cost less accumulated depreciation and impairment in value, if any.

The initial cost of equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditures incurred after the equipment have been put into operation, such as repairs, maintenance and overhaul costs, are normally charged to operations in the year the costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefits expected to be obtained from the use of an item of equipment beyond its originally assessed standard of performance, the expenditures are capitalized as additional costs of equipment. The cost of replacing a component of an item of equipment is recognized if it is probable that the future economic benefits embodied within the component will flow to the Company, and its cost can be measured reliably. The carrying amount of the replaced component is derecognized.

Depreciation is calculated on a straight-line basis over the estimated useful lives of five (5) years for computer and transportation equipment.

The estimated useful lives and method for depreciation are reviewed periodically to ensure that the periods and method of depreciation are consistent with the expected pattern of economic benefits from items of equipment.

When assets are retired or otherwise disposed of, the cost and the related accumulated depreciation and any impairment in value are removed from the accounts. Any resulting gain or loss is credited to or charged against current operations.

Impairment of Nonfinancial Assets

The Company assesses at each reporting date whether there is an indication that nonfinancial assets may be impaired when events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. If any such indication exists and if the carrying amount exceeds the estimated recoverable amount, nonfinancial assets are written down to its recoverable amount, which is the greater of fair value less cost to sell and value in use. The fair value less cost to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable and willing parties less cost of disposal. In assessing value in use, the estimated future cash flows are discounted to present value using a pretax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs. Impairment losses are recognized in profit or loss.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. In such instance, the carrying amount of the asset is increased to its recoverable amount. However, that increased amount cannot exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in profit or loss.

Equity

Capital Stock. Capital stock is measured at par value for all shares issued and outstanding.

Deficit. Deficit represents the cumulative balance of the Company's results of operations.

Cumulative unrealized gain on fair value changes on investment in a club share. The account comprises of unrealized fair value gain or loss that is not recognized in profit or loss for the year in accordance with PFRS.

Revenue Recognition

Revenue is recognized to the extent that it is probable that economic benefits will flow to the Company and the amount of revenue can be measured reliably.

Revenue from contract with customers is recognized when the performance obligation in the contract has been satisfied at a point in time or over time.

The Company also assesses its revenue arrangements to determine if it is acting as a principal or as an agent. The Company has assessed that it acts as a principal in all of its revenue source.

The following specific recognition criteria must also be met before revenue is recognized.

Interest Income. Interest income is recognized in profit or loss as it accrues, taking into account the effective yield on the asset.

Recovery of Accounts Written-off. Income from recovery of accounts written-off is recognized when the amount previously written off is collected and actually received.

Rent. Rent income is recognized using the straight-line method over the term of the lease.

Reversal of long-outstanding payables. Reversal of payables pertain to financial obligations arising from transactions that are not expected to be settled as the same is either discharged by the creditor or discontinued or cancelled, and is recognized in the statement of comprehensive income.

Expense Recognition

Expenses constitute cost of administering the business. These costs are expensed upon receipt of goods, utilization of services, or when the expense is incurred.

Income Taxes

Current Tax. Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount is the one that has been enacted or substantively enacted at the reporting date.

Deferred Tax. Deferred tax is provided on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences. Deferred tax assets are recognized for all deductible temporary differences, carryforward benefits of any unused tax credits from the excess of minimum corporate income tax (MCIT) over the regular corporate income tax and any unused net operating loss carryover (NOLCO), to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and carryforward benefits of unused MCIT and unused NOLCO can be utilized. Deferred tax, however, is not recognized when it arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Deferred tax is recognized in profit or loss except to the extent that it relates to a business combination, or items directly recognized in equity as OCI.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates and tax laws that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rate that has been enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities are offset, if a legally enforceable right exists to offset current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Basic and Diluted Income (Loss) per Share

The Company computes its basic income (loss) per share by dividing net income (loss) for the period attributable to ordinary equity holders of the Company by the weighted average number of common shares outstanding during the period.

Diluted income per share amounts are computed in the same manner, adjusted for the dilutive effect of any potential common shares. There is no such information in 2021, 2020 and 2019 because the Company has no dilutive potential common shares and is in a net loss position.

Segment Reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to the transactions with any of the Company's other components. The Company has only one segment which is as a holding company.

Related Parties

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence.

A related party transaction is a transfer of resources, services or obligations between a reporting entity and a related party, regardless of whether a price is charged.

Related party transactions are considered material and/or significant if these transactions amount to 10% or higher of the Company's total assets or if there are several transactions or a series of transactions over a twelve-month period with the same related party amounting to 10% or higher of the Company's total assets.

Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

Provisions are made using the best estimates of the amount required to settle the obligation and are discounted to present values using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. Changes in estimates are reflected in profit or loss in the period these arise.

Contingencies

Contingent liabilities are not recognized in the financial statements. They are disclosed in the notes to financial statements unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the financial statements but are disclosed when an inflow of economic benefits is probable.

Events after the Reporting Date

Post year-end events that provide additional information about the Company's financial position at the end of reporting period (adjusting events) are reflected in the financial statements. Post year-end events that are non-adjusting are disclosed in the notes to financial statements when material.

3. Significant Judgment, Accounting Estimates and Assumptions

The preparation of financial statements in accordance with PFRS requires management to exercise judgment, make estimates and assumptions that affect the amounts reported in the financial statements. The judgment and estimates used in the financial statements are based on management's evaluation of relevant facts and circumstances as at the reporting date. While the Company believes that the assumptions are reasonable and appropriate, significant differences in the actual experience or significant changes in the assumptions may materially affect the estimated amounts. Actual results could differ from such estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Judgment

In the process of applying the Company's accounting policies, management has made the following judgment, apart from those involving estimates, which have the most significant effect on the amounts recognized in the financial statements.

Assessing the Company's Ability to Continue as a Going Concern. The Company has incurred continuous losses resulting in a capital deficiency of ₱145.1 million and ₱144.2 million as at December 31, 2021 and 2020, respectively. As discussed in Note 1, the stockholders provide continuing financial support as the Company continues to explore new business opportunities. Accordingly, the financial statements are prepared on a going concern basis of accounting.

Classifying the Financial Instruments. The Company exercises judgment in classifying a financial instrument on initial recognition either as a financial asset, a financial liability or an equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial asset, a financial liability or an equity instrument. The substance of a financial instrument, rather than its legal form, governs its classification in the statements of financial position.

The Company classified its investment in a club share as financial asset at FVOCI (see Note 7).

Accounting for the Lease Commitments - Company as a Lessor. Management exercises judgment in determining whether substantially all the significant risks and benefits of ownership of the assets held for lease are retained by the Company. Lease contracts where the Company retains substantially all the risks and benefits incidental to ownership of the leased item are accounted for as operating leases. Otherwise, these are considered as finance leases.

The Company, as a lessor, has entered into property subleases and transportation equipment lease agreements where it has determined that it retains all the significant risks and benefits of ownership on those properties. As such, the lease agreements are accounted for as operating leases. The lease agreement is outstanding from February 8, 2018 to 2019.

Rent income amounted to ₱0.8 million in 2019. No rent income was recognized in 2021 and 2020. (see Note 12).

Evaluating the Contingencies. The Company is a party to certain lawsuits or claims arising from the ordinary course of business. However, the Company's management and legal counsel believe that eventual liabilities under these lawsuits or claims, if any, will not have a material effect on the Company's financial statements.

Estimates and Assumptions

The key estimates concerning the future and other key sources of estimation uncertainty at the reporting date, that has a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

Estimating the Liabilities Related to Previous Development Bank Operations. The estimated liabilities related to previous development bank operations of the Company is based on the management's best estimate of the amount expected to be incurred to settle the obligation.

Liabilities arising from the MOA amounted to ₱164.3 million and ₱161.9 million as at December 31, 2021 and 2020, respectively (see Note 9).

Assessing the Expected Credit Losses on Financial Assets at Amortized Cost. The Company applies the simplified approach on its rent receivables and the general approach on all its other financial assets at amortized cost in measuring the expected credit loss. The Company estimates the expected credit loss on its rent receivables using a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

The Company assessed that cash are deposited with reputable counterparty banks that possess good credit ratings. For related party transactions and other receivables, the Company considered the available liquid assets of the related parties and letter of guarantee from the stockholders.

The Company assesses that a financial asset is considered credit impaired when one or more events that have a detrimental effect on the estimated future cash flows of the asset have occurred such as significant financial difficulty and cessation of operations of the debtor.

Impairment loss amounting to ₱5.5 million was recognized in 2021 (see Note 5).

The aggregate carrying amount of cash in banks, receivables (excluding advances to officers, employees and service providers) and due from related parties amounted to ₱42.0 million and ₱46.6 million as at December 31, 2021 and 2020, respectively (see Note 4, 5 and 12).

Assessing the Impairment of Nonfinancial Assets. The Company assesses impairment on nonfinancial assets whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The factors that the Company considers important which could trigger an impairment review include the following:

- significant underperformance relative to expected historical or projected future operating results;
- significant changes in the manner of use of the acquired assets or the strategy for overall business;
or
- significant negative industry or economic trends.

No impairment losses were recognized in 2021, 2020 and 2019.

The carrying amounts of the Company's nonfinancial assets are as follows:

	Note	2021	2020
Advances to officers, employees and service providers	5	₱69,160	₱48,700
Other current assets	6	4,697,997	4,502,838
Equipment	8	256,488	582,763

Assessing the Realizability of Deferred Tax Assets. The Company reviews its deferred tax assets at each reporting date and reduces the carrying amount to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized in the future. The amount of deferred income tax assets that are recognized is based upon the likely timing and level of future taxable profits together with future tax planning strategies to which the deferred income tax assets can be utilized.

The Company's unrecognized deferred tax assets amounted to ₱13.3 million and ₱21.2 million as at December 31, 2021 and 2020, respectively. Management believes that there will be no sufficient future taxable profits against which these deferred tax assets can be utilized (see Note 11).

4. Cash

This account consists of:

	2021	2020
Cash on hand	₱4,759	₱5,277
Cash in banks	7,106,172	8,227,827
	₱7,110,931	₱8,233,104

Cash in banks earn interest at prevailing bank deposit rates.

The sources of interest income are as follows:

	Note	2021	2020	2019
Cash in banks		₱7,257	₱15,187	₱9,349
Loans receivable	12	–	2,600,000	2,600,000
		₱7,257	₱2,615,187	₱2,609,349

5. Receivables

This account consists of:

	Note	2021	2020
Loans receivable:			
Third parties		₱62,277,740	₱62,277,740
Related party	12	26,000,000	26,000,000
Interest receivable	12	5,541,667	5,541,667
Advances to officers, employees and service providers		2,195,495	2,175,035
Rent receivables:

Less allowance for impairment losses		70,183,674	64,642,007
		₱27,252,360	₱32,773,567

Loans receivable from third parties are related to the Company's previous bank operations and are fully provided with allowance for impairment loss.

Loans receivable from a related party is covered by a loan agreement executed in 2019 with Marcventures Mining and Development Corporation (MMDC), a related party under common control, bears fixed interest of 10% per annum and is due and demandable. Management has assessed that interest receivables are impaired as at December 31, 2021. Impairment loss recognized in 2021 amounted to ₱5.5 million. On April 12, 2022, the Company's BOD approved to waive the interest from MMDC as at December 31, 2021 (see Note 12).

Advances to officers, employees and service providers represent unliquidated, noninterest-bearing advances for processing the transfer of title of properties to BDO and PDIC. These are liquidated upon the accomplishment of the purposes for which the advances were granted.

Breakdown of allowance for impairment losses as at December 31, 2021 and 2020 are as follows:

	Note	2021	2020
Loans receivable		₱62,277,740	₱62,277,740
Interest receivable	12	5,541,667	–

Prepayments	400,924	398,783
	₱4,697,997	₱4,502,838

Prepayments mainly pertain to prepaid insurance and taxes.

7. Investment in a Club Share

The Company's investment consists of a club share in Valley Golf & Country Club. The fair value of the club share is determined by reference to published price quotations in an active market.

Movements in this account are as follows:

	2021	2020
Cost	₱200,000	₱200,000
Cumulative unrealized gain on fair value changes		
Balance at beginning of year	800,000	700,000
Fair value changes	750,000	100,000
Balance at end of year	1,550,000	800,000
	₱1,750,000	₱1,000,000

The fair value of the investment in a club share was determined based on the current selling price to third parties which falls under Level 2 of the fair value hierarchy.

8. Equipment

Movements in this account are as follows:

	2021		Total
	Computer Equipment	Transportation Equipment	
Cost			
Balance at beginning and end of year	₱85,800	₱1,631,375	₱1,717,175

Rent income from the lease of transportation equipment amounted to ₱0.8 million in 2019 (see Note 12).

9. Accrued Expenses and Other Current Liabilities

This account consists of:

	2021	2020
Liabilities arising from the MOA	₱164,304,972	₱161,904,972
Dividends payable	10,985,443	10,985,443
Accrued expenses	4,713,640	3,112,379
Statutory payable	15,527	5,690
Rental deposits	–	5,972,642
Others	–	3,196,210
	₱180,019,582	₱185,177,336

Liabilities arising from the MOA pertain mainly to the estimated transfer taxes and registration fees related to the transfer of assets from the Company's previous development bank operations to BDO and PDIC and other related liabilities, primarily from unremitted collection of assigned receivables and sale of foreclosed properties for the account of PDIC (see Note 1). Additions in liabilities arising from MOA in 2021 and 2020 amounted to ₱2.4 million and ₱2.6 million, respectively. This account also includes provision for probable losses to cover estimated losses from claims. As allowed under PAS 37, *Provisions, Contingent Liabilities and Contingent Assets*, certain information is not disclosed until final settlement as it might prejudice the Company's position on the matter.

Dividends payable pertain to the Company's dividend for cumulative, nonparticipating, nonvoting, redeemable and convertible preferred stock that were declared prior to the Company's incurrence of deficit.

Accrued expenses pertain to accrual of outside services, professional fees and association dues, among others. These are normally settled in the next financial year.

Statutory payable is normally settled within the following month.

Rental deposits represent long-outstanding rental deposits that have not been claimed by the Company's previous tenants.

Other current liabilities include statutory payable and refunds of tenants related to the Company's previous operations. These are noninterest-bearing and unsecured. Other current liabilities are normally settled in the next financial year.

On April 12, 2022, the Company's BOD approved the reversals of long-outstanding payables related to rental deposits and other payables amounting to ₱9.2 million.

10. Equity

Capital Stock

Details of capital stock as at December 31, 2021 and 2020 account are as follows:

	Number of Shares	Amount
Common stock - ₱1 par value		
Authorized	3,000,000,000	₱3,000,000,000
<i>Subscribed:</i>		
Balance at beginning and end of year	700,298,616	700,298,616
Preferred stock - ₱1 par value		
Authorized	2,000,000,000	2,000,000,000
<i>Issued and outstanding:</i>		
Balance at beginning and end of year	14,366,260	14,366,260
	714,664,876	₱714,664,876

The preferred stock has the following salient features:

- a. Cumulative, nonparticipating, nonvoting, redeemable and convertible at the option of the Company.
- b. Cash dividend rate initially at 4.50% per annum based on par value, which shall be automatically adjusted to 11.00% per annum upon full payment of the subscription price.
- c. The Company may, at any time at its option, wholly or partially redeem the outstanding preferred stock plus accrued dividends thereon. When such call for redemption is made, the holders of the preferred stock may opt to convert the preferred stock to common stock.

Under the MOU, the Company shall endeavor, on a best efforts basis, to convert Series "A" Preferred Shares into common shares for listing with the PSE. As discussed in Note 1, in 2021, the BOD and shareholders approved the reclassification of the Preferred Class A and B Shares at ₱1 par value a share, to Common Shares with ₱1 par value share, and deletion of all provisions relating to Preferred Class A and B Shares. As at April 12, 2022, application for the amendment of Articles of Incorporation has been submitted to the SEC.

As at December 31, 2021 and 2020, there is no accrued and unpaid preferential dividend.

11. Income Tax

The provision for current income tax represents MCIT in 2021, 2020 and 2019.

On March 26, 2021, the “Corporate Recovery and Tax Incentives for Enterprise” (CREATE) was approved and signed into law by the country’s President. Under the CREATE, the RCIT of domestic corporations was revised from 30% to 25% or 20% depending on the amount of total assets or total amount of taxable income. In addition, the minimum corporate income tax (MCIT) was changed from 2% to 1% of gross income for a period of three years. The changes in the income tax rates shall retrospectively become effective beginning July 1, 2020.

The income tax rates used in preparing the financial statements for 2020, however, are stated at 30% and 2% for RCIT and MCIT, respectively.

The reconciliation of provision for current income tax at the statutory income tax rate to the provision for current income tax shown in the statements of comprehensive income are as follows:

	2021	2020	2019
Income tax computed at statutory tax rate	(P323,355)	(P877,087)	(P276,228)
Changes in unrecognized deferred tax assets	(7,916,007)	(7,331,958)	(7,957,729)
Change in statutory income tax rate	6,972,347	-	-
Tax effects of:			
Nondeductible expenses	1,184,833	300	-
Expired MCIT	175,322	8,266,301	8,308,122
Interest income already subjected to final tax	(1,451)	(4,556)	(2,805)
	P91,689	P53,000	P71,360

The components of the Company’s unrecognized deferred tax assets are as follows:

	2021	2020
Allowance for impairment losses on receivables	P12,928,401	P19,392,602
MCIT	216,049	299,682
NOLCO	156,267	1,524,440
	P13,300,717	P21,216,724

No deferred tax assets were recognized as it is not probable that sufficient taxable profit will be available against which the deferred tax assets can be utilized.

As at December 31, 2021, unused NOLCO that can be claimed as deduction from future taxable income are as follows:

Year Incurred	Beginning Balance	Incurred	Applied	Ending Balance	Expiry Date
2020	P2,937,811	P-	(P2,156,477)	P781,334	2025
2019	930,109	-	(930,109)	-	2022
2018	1,213,547	-	(1,213,547)	-	2021
	P5,081,467	P-	(P4,300,133)	P781,334	

On September 30, 2020, the BIR issued RR No. 25-2020 to implement Section 4 (bbbb) of Republic Act No. 11494 (Bayanihan to Recover as One Act), allowing the Company's net operating losses for the taxable years 2020 and 2021 to be carried over for the next five (5) consecutive taxable years immediately following the year of such loss. Consequently, NOLCO incurred in 2020 amounting to ₱2.9 million are allowed as deduction from future taxable income until 2025.

As at December 31, 2021, unused MCIT that can be claimed as deduction from future income tax liability are as follows:

Year Incurred	Beginning Balance	Incurred	Expired	Ending Balance	Expiry Date
2021	₱-	₱91,689	₱-	₱91,689	2024
2020	53,000	-	-	53,000	2023

The Company has no material and/or significant transactions with its related parties in 2021.

Terms and Conditions of Transactions with Related Parties

Loans Receivable

In 2018, the Company entered into an unsecured loan agreement with MMDC at 10% a year. As at December 31, 2021, the loans receivable are due and demandable.

Management has assessed that interest receivables are impaired as at December 31, 2021. Impairment loss recognized in 2021 for the waived interest receivable amounted to ₱5.5 million. No interest income was recognized in 2021. On April 12, 2022, the Company's BOD approved to waive the interest from MMDC as at December 31, 2021.

Rent Receivables

On February 8, 2018, the Company entered into an operating lease agreement with MMDC for the lease of a transportation equipment until October 7, 2019 (see Note 8). As at December 31, 2021, the rent receivable is due and demandable. Rent income recognized amounted to ₱0.8 million in 2019.

Due to and from Related Parties

Outstanding balances are unsecured, noninterest-bearing, collectible or payable in cash upon demand. The Company has no provision for impairment loss relating to the amounts due from related parties as at December 31, 2021 and 2020. This assessment is undertaken at each reporting date by taking into consideration the financial position of the related parties and the market at which the related parties operates.

Compensation of Key Management Personnel

The Company's accounting and administrative functions are provided by a related party at no cost to the Company.

13. Commitments and Contingencies

- a. In the normal course of its prior operations, the Company has outstanding commitments, pending litigations and contingent liabilities which are not reflected in the financial statements. Management believes that the ultimate outcome of these matters will not have a material impact in the financial statements.
- b. As discussed in Note 1, under the MOA dated September 12, 2002 between the Company and BDO and PDIC, the Company agreed to transfer its assets and liabilities from its development bank operations to BDO and PDIC. Under the terms of the MOA, the Company holds BDO free from any contingent claims, labor and minority issues and concerns arising from related assets and liabilities still managed by the Company until these are assumed by BDO.

The Company has accounted for separately, assets from its development bank operations pursuant to the MOA. It still has in its possession titles of real estate properties from its development bank operations with an aggregate value of ₱499.1 million as at December 31, 2021 and 2020. Moreover, the Company has cash of ₱13.9 million as at December 31, 2021 and 2020 arising from the proceeds of the sale of one of the properties.

14. Earnings Per Share (EPS)

The basic and diluted loss per share is computed as follows:

	2021	2020	2019
Net loss	(₱1,708,466)	(₱2,976,624)	(₱992,120)
Less dividend rights of preferred stockholders for the year	1,581,671	1,581,671	1,581,671
Loss attributable to common stockholders	(3,290,137)	(4,558,295)	(2,573,791)
Divided by weighted average number of common stock	700,298,616	700,298,616	700,298,616
Basic/diluted loss per share	(₱0.005)	(₱0.007)	(₱0.004)

The convertible feature of the Company's preferred stock has potential antidilutive effect. The Company has no diluted income per share in 2021, 2020 and 2019 because the Company is in a net loss position.

15. Financial Risk Management Objectives and Policies

The Company's principal financial instruments comprise of cash, receivables (excluding advances to officers, employees and service providers), due from related parties, investment in a club share, accrued expenses and other current liabilities (excluding statutory payable) and due to a related party.

The main risks arising from the financial instruments of the Company are credit risk and liquidity risk. The BOD reviews and approves policies for managing the risks.

Credit Risk

Credit risk is the risk of loss that may arise on outstanding financial instruments should a counterparty default on its obligation. The Company's exposure to credit risk arises primarily from cash in banks, receivables (excluding advances to officers, employees and service providers) and due from related parties and investment in a club share. The carrying amounts of the financial assets represent the Company's gross maximum exposure to credit risk in relation to financial assets.

The aging analyses of financial assets as at December 31, 2021 and 2020 are as follows:

	2021				
	Neither Past Due Nor Impaired	Past Due But Not Impaired		Past Due and Impaired	Total

*Excluding advances to officers, employees and service providers amounting to ₱2.2 million.

Credit Quality of Financial Assets. The credit quality of the Company's financial assets are being managed by using internal credit ratings such as high grade and standard grade.

High grade - pertains to counterparty who is not expected by the Company to default in settling its obligations, thus credit risk exposure is minimal.

Standard grade - include financial assets that are considered moderately realizable and some accounts which would require some reminder follow-ups to obtain settlement from the counterparty.

The Company has assessed the credit quality of financial assets that are neither past due nor impaired as high grade.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to settle or meet its financial obligations when they fall due. The Company aims to maintain flexibility by maintaining sufficient cash to meet all foreseeable cash needs.

The Company also maintains a balance between continuity of funding and flexibility. The policy of the Company is to first exhaust lines available from affiliated companies before local bank lines are availed of. The Company seeks to manage its liquid funds through cash planning on a weekly basis. The Company uses historical figures and experiences and forecasts from its cash receipts and disbursements. As part of its liquidity risk management, the Company regularly evaluates its projected and actual cash flows.

As at December 31, 2021 and 2020, accrued expenses and other current liabilities (excluding statutory payable) and due to a related party aggregating ₱193.9 million and ₱199.1 million, respectively, are generally due and demandable.

Fair Values

The following table presents the carrying amounts and fair values of the Company's assets and liabilities measured at fair value and the corresponding fair value hierarchy:

	2021		2020	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value

**Excluding statutory payable amounting to ₱15,527 and ₱5,690 as at December 31, 2021 and 2020, respectively.

Current Financial Assets and Liabilities. The carrying amounts of cash, receivables (excluding advances from officers, employees and service providers), due from related parties and accrued expenses and other current liabilities (excluding statutory payable) and due to a related party approximate their fair values due to the short-term nature and maturities of the transactions. The fair value measurement of current financial assets and liabilities is classified as Level 3 (Significant unobservable inputs).

Investment in a Club Share. The fair value of this financial asset was determined based on the current selling price to third parties. The fair value measurement of equity securities designated as FVOCI is classified as Level 2 (significant observable inputs).

There has been no transfer between levels of fair value hierarchy as at December 31, 2021 and 2020.

Capital Management

The primary objective of the Company's capital management is to safeguard the Company's ability to continue its operations as a going concern and to maximize shareholder value. The Company manages its capital structure and makes adjustments to it, when there are changes in the economic conditions. To maintain or adjust the capital structure, the Company may adjust dividend payment to shareholders, return capital to shareholders, or issue new stock. No changes were made in the objectives, policies or processes for the years ended December 31, 2021 and 2020.

Contextual Information

Prime Media Holdings Inc. (PMHI) continued to pursue its goal of revival and relevance in 2021. It supports the sustainable goal for economic growth with potential new businesses and promotes Good Corporate Governance as it moves towards its revitalization and reinventions plans.

Name of Organization	Prime Media Holdings, Inc. (PMHI)
Principal Office	16th Floor BDO Towers Valero (formerly Citibank Center), 8741 Paseo de Roxas, Makati City
Business Model	Holding company listed in the Philippine Stock Exchange (PSE) Activity: Engaged in the purchase, exchange, assignment, and holding of shares or equity. It is currently pursuing the acquisition closing of an interest in a mass media company, considering the sale of its remaining assets in order to revert to an operating or going concern status.
Reporting Period	January 1 to December 31, 2021

Company History and Business Context

PMHI was originally incorporated as the Private Development Corporation of the Philippines (PDCP) in 1963. In 2000, the Company changed its name to First e-Bank Corporation, and later on, in 2003, the Company adopted its current name. The Company's Board of Directors and stockholders approved an amendment to its Articles of Incorporation in 2002 changing its primary purpose to a holding and investment company with investments in the media industry. Since then, its activities are focused on cleaning-up efforts covering its erstwhile operations as a banking entity.

With an economy that has yet to see Lucent light amid the global pandemic, PMHI carries on with the process of assessing the best possible avenues in its pursuit of strategically entering the media industry and adopting a business model that will attain sustainability.

In 2010, given its minimal operations and the company's plans to reorganize and to further assess its business model, PMHI gradually retired all its employees and outsourced its administration and operations to consultants and service providers.

While PMHI is still currently non-operational, it seeks to align its transition process with the UN Sustainable Development Goal on Economic Growth. This report was prepared following Principle 10 of the Code of Corporate Governance for Publicly Listed Companies (PLCs) stating that companies should ensure that material and reportable non-financial and sustainability issues are disclosed.

This signifies the Company's commitment to good corporate governance and demonstrates that PMHI's reporting process is in place, not only on the financial aspect but on sustainability as well. PMHI fully affirms that its economic growth should also be based on sustainable grounds.

Supports sustainable goal for economic growth

While the challenges of the Covid-19 pandemic may still be in the midst, yet encouraging hints of recovery were most evident, especially during the last quarter of the previous year.

The United Nations (UN) called for mobilized action for a resilient recovery guided by the Sustainable Development Goals (SDGs). It called for accelerated action towards global access to vaccines, basic universal health coverage; universal social protection; new food systems that reduce poverty and hunger; reversing deforestation, biodiversity loss, and pollution; sustainable and inclusive growth paths; women's empowerment; transparent and accountable institutions; an inclusive digital transformation; and a stronger focus on the most vulnerable.

In the Philippines, the glimmer of hope came in the form of the country's vaccination program, which allowed more sectors to open. According to the NEDA Report on the Philippine Economic Performance for 2021, the Philippine economy grew by 7.7 percent year-on-year in the fourth quarter.

The expansion brought a GDP growth of 5.6 percent exceeding the Development Budget Coordination Committee's target of 5.0 to 5.5 percent.

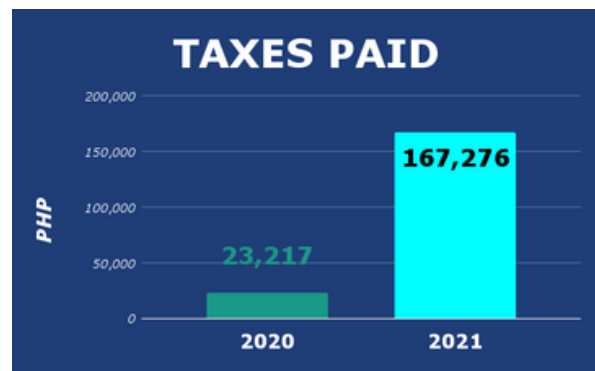

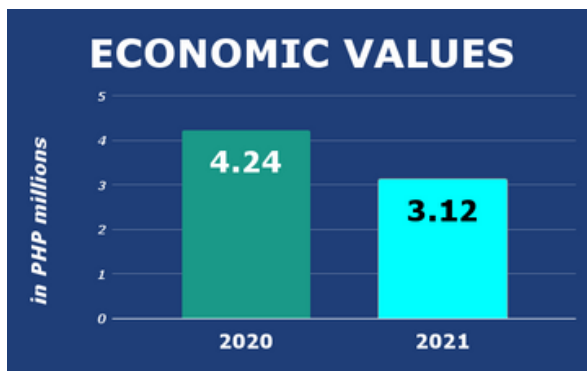

Socioeconomic Planning Secretary Karl Chua explained that the sustained growth was driven by the successful management of risks, targeting high-risk areas while allowing the rest of the economy to open. As quoted from Mr. Chua "The numbers for 2021 show an economy primed to break out."

Seeking New & Viable Businesses

Even with the pandemic, Prime Media Holdings Inc. (PMHI) continued to pursue its goal of revival and relevance in 2021. It supports the sustainable goal for economic growth in seeking potential new and viable businesses. In 2021 it signed a Memorandum of Understanding (MOU) with New Era Empire Realty Corp, for possible ventures in commercial and residential real estate leasing, hospitality; media and entertainment, gaming, Philippine Offshore Gaming Operators (POGO) allied services, and Fintech. In the same year 2021 the Company entered into Memorandum of Understanding and subsequently , a definitive Memorandum of Agreement (MOA) with the shareholders of Philippine Collective Media Corporation (PCMC). Said MOA will mark PMHI's entry into the broadcast communications and mass media sector subject to the satisfaction of all the closing conditions for the transaction, which the parties are currently endeavoring to complete.

PMHI looks to shape a sustainable business model, not just for its shareholders but for society as a whole.

The recent developments have laid the groundwork for a very promising investment opportunity. In time the Company should be able to provide a direct and more tangible contribution through its business activities, asset allocation, and investment decisions. Despite its non-operational status for the time being, PMHI likewise, fully promotes Good Corporate Governance as it moves towards its revitalization and reinventions plans.

In 2021, the company paid a total of Php 3,128,297 to suppliers and other operating expenses.

It also remitted taxes to the Philippine government in the amount of Php 168,276.

The figures may not be deemed substantial from a business standpoint, but it is an indication of PMHI's commitment to contribute and comply with its obligation to the Philippine government and the local economy.

Corporate Governance Confirmation Statement

As a publicly-listed corporation, and despite its limited size, personnel and activities, PMHI seeks to ensure continuous adherence to and compliance with corporate governance rules, regulations, and requirements imposed by the Philippine Securities and Exchange Commission (SEC) and the PSE

Transparency

Likewise, PMHI continues to practice transparency and accountability to the public and its institutional stakeholders. PMHI holds its annual stockholders' meetings and timely submits its reportorial requirements and/or disclosures with the PSE and SEC, to keep its stockholders informed of the current condition, plans and future standing of the Company.

The Company's audited financial performance was presented to its shareholders during the virtual annual stockholders' meeting held on October 13, 2021. In line with with SEC's regulations the meeting via remote communication format aims to further safeguard everyone's safety and health due to the ongoing threat of the COVID-19 pandemic.

Vital information on the Company is also freely accessible via its website, which also includes its current Annual Report, Information Statement and Sustainability Reports.

Data Security

Data security is a vital material topic relative to the Company's plans to lay the groundwork to revitalize its operations in the future. PMHI has a duly appointed Data Privacy Officer to ensure strict implementation of confidentiality measures that comply with Philippine data privacy laws. More stringent measures will be adopted in order to be attuned with future plans and business expansion goals.

In summary, PMHI demonstrates good corporate governance as it focuses on pursuing strategic investments for its future growth and reversion to a going concern status.

Materiality Assessment & Reporting Process

The report was prepared following the Sustainability Reporting Guidelines for Publicly Listed companies of the Philippines, released by the Securities and Exchange Commission. PMHI expects to further develop its materiality assessment and sustainability reporting process once it completes its corporate reorganization, determines the optimal business model, and resumes operations.

In 2019, the Company, for its first Sustainability Report, engaged the services of Atty. Teodoro Kalaw IV, is certified both as a sustainability trainer by the Global Reporting Initiative and a sustainability report assurer by the Institute of Certified Sustainable Practitioners. Atty. Kalaw facilitated an extensive sustainability orientation and materiality assessment workshop for key officers and staff of the Firm. The same key officers and staff are tasked to provide continuity in preparing Y2020 Sustainability Report.

In light of PMHI's dormancy, it was determined that most of the prospective material topics in the economic, environmental, and social domains described in SEC Memorandum Circular No. 4 s. of 2019 are presently not relevant to our stakeholders for the time being.

As it moves toward pursuing a more active business operations, PMHI expects to be able to specifically demonstrate its contributions to the Sustainable Development Goals promoted by the United Nations. The transition would support sustainable economic growth and increase employment opportunities.

For 2021, the results of the materiality assessment are substantially similar to the previous year as the Company remains in the process of determining the optimal business model to embark on.

Ultimately, the real benefit of this initial process is to prepare the Company for a more robust sustainable operations and reporting in future fiscal years. This will provide a foundation for more accountability and transparency in its future disclosures and other reporting processes.
