(A Subsidiary of RYM Business Management Corp.)
NOTES TO FINANCIAL STATEMENTS

1. Corporate Information

Prime Media Holdings, Inc. (the Company) was originally incorporated and registered with the Philippine Securities and Exchange Commission (SEC) on February 6, 1963 as Private Development Corporation of the Philippines. In October 2003, the SEC approved the amendment of the Company's Articles of Incorporation, changing its primary purpose from a development bank to a holding company. On March 4, 2013, the SEC approved the extension of the Company's corporate life for another 50 years. However, in accordance with the Revised Corporation Code of the Philippines, effective February 23, 2019, the Company was automatically accorded perpetual existence.

On July 9, 1964, the Philippine Stock Exchange, Inc. (PSE) approved the public listing of the Company's shares of stock. As at September 30, 2024, there are 663,713,458 Company shares that are publicly listed.

The Company is a subsidiary of RYM Business Management Corp. (RYM or the Parent Company), a holding company registered and domiciled in the Philippines.

The Company's registered office and principal place of business is on the 16th Floor, BDO Towers Valero, 8741 Paseo de Roxas, Makati City.

Amendments in the Articles of Incorporation (AOI)

On August 15, 2022 and on September 23, 2022, the Board of Directors (BOD) and the stockholders, respectively, approved, among others, the deletion of all provisions relating to the Company's preferred shares, the conversion of the preferred shares to common shares and the increase of the authorized capital stock to up to ₱7 billion, divided into 7,000,000,000 common shares at ₱1.00 par value a share. The amendment of the AOI is pending approval by the SEC as at April 12, 2024.

Additional Capital

In 2023, the Company issued a total of 150,000,000 common shares at ₱2.70 per share equivalent to ₱405.0 million paid in cash, resulting to an additional paid-in capital of ₱255.0 million. The documentary stamp tax of ₱1.5 million paid in relation to stock issuance was recognized as deduction to additional paid-in capital, resulting to a balance of ₱253.5 million as at September 30, 2024 and December 31, 2023. Notably, 125,000,000 common shares were issued to Angel Maple Properties, Inc. (now known as Valiant Consolidated Resources Inc.) and 25,000,000 common shares were issued to Cymac Holdings Corporation. Angel Maple Properties, Inc. and Cymac Holdings Corporation are separate and distinct entities not acting in concert in subscribing to shares of the Company.

MOA with Philippine Collective Media Corporation (PCMC)

In 2021, the Company entered into a MOA, with the majority stockholders of a mass media entity, Philippine Collective Media Corporation ("PCMC Shareholders"), subscribing to 70% of the Company's outstanding capital stock in exchange for PCMC shares to obtain the business, assets and ownership of PCMC. With PCMC's national franchise, the Company may use this as a leverage to provide other content providers with an avenue to broadcast their contents, regionally and nationwide, for profit.

PRIME MEDIA HOLDINGS, INC.
(A Subsidiary of RYM Business Management Corp.)

This MOA was subsequently amended On August 15, 2022 and September 23, 2022, due to subsequent acquisition of PCMC by Golden Peregrine Holdings, Inc. (GPHI).. The BOD and stockholders approved the subscription by GPHI shareholders to 1,679,966,400 common shares to be issued from the proposed increase in authorized capital stock of the Company in exchange of shares of stock in GPHI in order to obtain full control and ownership in PCMC. This MOA is conditioned upon clean-up activities to be performed by the Company, which are pending with the Securities and Exchange Commission.

On January 18, 2023, the BOD approved the Amendment of the MOA with GPHI to:

- (a) Change the Exchange Ratio to 4,700 PRIM shares for 1 Golden Peregrine share pursuant to the updated appraisal report.
- (b) Subscription by Atty. Hermogene H. Real and Ms. Michelle Ayangco to 1,645,000,000 PRIM Common Shares to be issued out of the proposed increase in authorized capital stock in consideration of the assignment of 100% of the Outstanding Capital Stock of Golden Peregrine pursuant to the updated appraisal report.
- (c) Other provisions which require updating and affected by the amendments aforementioned.

Joint Venture Agreement with ABS-CBN Corporation (ABS-CBN)

On May 23, 2023, the BOD approved the Joint Venture Agreement with ABS-CBN to form a joint venture entity, which was eventually incorporated on June 30, 2023 (see Note 8). The Company shall have 51% equity with an initial subscription of 20,400,000 shares for a total value of ₱20.4 million. ABS-CBN on the other hand, shall have 49% equity with an initial subscription of 19,600,000 shares for a total value of ₱19.6 million. The Joint Venture is incorporated primarily for the purpose of developing, producing, and financing content, programs, and shows for distribution by other broadcast networks, channels, or platforms, locally and internationally.

2. Summary of Significant Accounting Policies

Basis of Preparation

The financial statements have been prepared in compliance with the Philippine Financial Reporting Standards (PFRS) issued by the Philippine Financial and Sustainability Reporting Standards Council (formerly Financial Reporting Standards Council) and adopted by the SEC, including SEC pronouncements. This financial reporting framework includes PFRS, Philippine Accounting Standards (PAS) and Philippine Interpretations from International Financial Reporting Interpretations Committee (IFRIC).

The accounting policies adopted are consistent with those of the previous financial year.

Measurement Bases

The financial statements are presented in Philippine Peso (Peso), which is also the Company's functional currency. All amounts are rounded to the nearest Peso, unless otherwise stated.

The financial statements have been prepared on a historical cost basis, except for investment in a club share which was classified and measured as financial asset at fair value through other comprehensive income (FVOCI). Historical cost is generally based on the fair value of the consideration given in exchange for an asset and the fair value of the consideration received in exchange for incurring liability.

PRIME MEDIA HOLDINGS, INC.
(A Subsidiary of RYM Business Management Corp.)

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the transaction date. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

The Company uses observable market data to a possible extent when measuring the fair value of an asset or a liability. Fair values are categorized into different levels in a fair value hierarchy based on inputs used in the valuation techniques as follows:

- Level 1 - Quoted (unadjusted) market prices in active market for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Further information about the assumptions made in measuring fair values is included in Notes 7 and 16.

Adoption of Amended PFRS

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of the following amended PFRS:

Effective for annual periods beginning on or after January 1, 2024:

- Amendments to PAS 1, *Presentation of Financial Statements*, and PFRS Practice Statement 2, *Making Materiality Judgments - Disclosure Initiative - Accounting Policies* – The amendments require an entity to disclose its material accounting policies, instead of its significant accounting policies and provide guidance on how an entity applies the concept of materiality in making decisions about accounting policy disclosures. In assessing the materiality of accounting policy information, entities need to consider both the size of the transactions, other events or conditions and its nature. The amendments clarify (1) that accounting policy information may be material because of its nature, even if the related amounts are immaterial, (2) that accounting policy information is material if users of an entity’s financial statements would need it to understand other material information in the financial statements, and (3) if an entity discloses immaterial accounting policy information, such information should not obscure material accounting policy information. In addition, PFRS Practice Statement 2 is amended by adding guidance and examples to explain and demonstrate the application of the ‘four-step materiality process’ to accounting policy information.

PRIME MEDIA HOLDINGS, INC.
(A Subsidiary of RYM Business Management Corp.)

- Amendments to PAS 8, *Accounting Policies, Changes in Accounting Estimates and Errors - Definition of Accounting Estimates* – The amendments clarify the distinction between changes in accounting estimates and changes in accounting policies, and the correction of errors. Under the new definition, accounting estimates are “monetary amounts in financial statements that are subject to measurement uncertainty”. An entity develops an accounting estimate if an accounting policy requires an item in the financial statements to be measured in a way that involves measurement uncertainty. The amendments clarify that a change in accounting estimate that results from new information or new developments is not a correction of an error, and that the effects of a change in an input or a measurement technique used to develop an accounting estimate are changes in accounting estimates if they do not result from the correction of prior period errors. A change in an accounting estimate may affect only the profit or loss in the current period, or the profit or loss of both the current and future periods.
- Amendments to PAS 12, *Income Taxes - Deferred Tax Related Assets and Liabilities from a Single Transaction* – The amendments require companies to recognize deferred tax on transactions that, on initial recognition, give rise to equal amounts of taxable and deductible temporary differences.
- Amendments to PAS 1, *Classification of Liabilities as Current or Noncurrent* – The amendments clarify the requirements for an entity to have the right to defer settlement of the liability for at least 12 months after the reporting period. The amendments also specify and clarify the following: (i) an entity’s right to defer settlement must exist at the end of the reporting period, (ii) the classification is unaffected by management’s intentions or expectations about whether the entity will exercise its right to defer settlement, (iii) how lending conditions affect classification, and (iv) requirements for classifying liabilities where an entity will or may settle by issuing its own equity instruments.
- Amendments to PAS 1, *Noncurrent Liabilities with Covenants* – The amendments clarified that covenants to be complied with after the reporting date do not affect the classification of debt as current or noncurrent at the reporting date. Instead, the amendments require the entity to disclose information about these covenants in the notes to the financial statements. The amendments must be applied retrospectively. Earlier application is permitted. If applied in an earlier period, the Company shall also apply Amendments to PAS 1 - *Classification of Liabilities as Current or Noncurrent* for that period.
- Amendments to PAS 7, *Statement of Cash Flows* and PFRS 7, *Financial Instrument: Disclosures - Supplier Finance Arrangements* – The amendments introduced new disclosure requirements to enable users of the financial statements assess the effects of supplier finance arrangements on the liabilities, cash flows and exposure to liquidity risk. The amendments also provide transitional relief on certain aspects, particularly on the disclosures of comparative information. Earlier application is permitted.

The adoption of the amended PFRS did not materially affect the financial statements of the Company. Additional disclosures were included in the financial statements, as applicable.

Amended PFRS Issued But Not Yet Effective

Relevant amended PFRS, which are not yet effective as at December 31, 2023 and have not been applied in preparing the financial statements, are summarized below.

PRIME MEDIA HOLDINGS, INC.
(A Subsidiary of RYM Business Management Corp.)

Deferred effectivity -

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28 - *Sale or Contribution of Assets Between an Investor and its Associate or Joint Venture* – The amendments address a conflicting provision under the two standards. It clarifies that a gain or loss shall be recognized fully when the transaction involves a business, and partially if it involves assets that do not constitute a business. The effective date of the amendments, initially set for annual periods beginning on or after January 1, 2016, was deferred indefinitely to December 2015 but earlier application is still permitted.

Under prevailing circumstances, the adoption of the foregoing amended PFRS is not expected to have any material effect on the financial statements of the Company. Additional disclosures will be included in the financial statements, as applicable.

Financial Assets and Liabilities

Date of Recognition. The Company recognizes a financial asset or a financial liability in the statements of financial position when it becomes a party to the contractual provisions of a financial instrument. In the case of a regular way purchase or sale of financial assets, recognition and derecognition, as applicable is done using settlement date accounting.

Initial Recognition and Measurement. Financial instruments are recognized initially at fair value, which is the fair value of the consideration given (in case of an asset) or received (in case of a liability). The initial measurement of financial instruments, except for those designated at fair value through profit or loss (FVPL), includes transaction cost.

“Day 1” Difference. Where the transaction price in a non-active market is different from the fair value of other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable market, the Company recognizes the difference between the transaction price and fair value (a “Day 1” difference) in profit or loss. In cases where there is no observable data on inception, the Company deems the transaction price as the best estimate of fair value and recognizes “Day 1” difference in profit or loss when the inputs become observable or when the instrument is derecognized. For each transaction, the Company determines the appropriate method of recognizing the “Day 1” difference.

Classification. The Company classifies its financial assets at initial recognition under the following categories: (a) financial assets at FVPL, (b) financial assets at amortized cost, and (c) financial assets at FVOCI. Financial liabilities, on the other hand, are classified as either financial liabilities at FVPL or other financial liabilities at amortized cost. The classification of a financial instrument largely depends on the Company’s business model.

As at September 30, 2024 and December 31, 2023, the Company does not have financial assets and liabilities at FVPL.

Financial Assets at Amortized Cost. A financial asset shall be measured at amortized cost if both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

PRIME MEDIA HOLDINGS, INC.
(A Subsidiary of RYM Business Management Corp.)

After initial recognition, financial assets at amortized cost are subsequently measured at amortized cost using the effective interest method, less allowance for impairment, if any. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees that are an integral part of the effective interest rate. Gains and losses are recognized in profit or loss when the financial assets are derecognized and through the amortization process. Financial assets at amortized cost are included under current assets if realizability or collectability is within 12 months after the reporting period. Otherwise, these are classified as noncurrent assets.

As at September 30, 2024 and December 31, 2023, the Company's cash, receivables (excluding advances to officers, employees and service providers), due from related parties and loans receivable are classified under this category.

Financial Assets at FVOCI. Equity securities which are not held for trading may be irrevocably designated at initial recognition under the FVOCI category.

Financial assets at FVOCI are initially measured at fair value plus transaction costs. After initial recognition, financial assets at FVOCI are measured at fair value with unrealized gains or losses recognized in other comprehensive income (OCI) and are included under "Other comprehensive income" account in the equity section of the statements of financial position. These fair value changes are recognized in equity and are not reclassified to profit or loss in subsequent periods. On disposal of these equity securities, any cumulative unrealized valuation gains will be reclassified to retained earnings.

As at September 30, 2024 and December 31, 2023, the Company's investment in a club share of Valley Golf & Country Club is classified under this category.

Financial Liabilities at Amortized Cost. Financial liabilities are categorized as financial liabilities at amortized cost when the substance of the contractual arrangement results in the Company having an obligation either to deliver cash or another financial asset to the holder, or to settle the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of its own equity instruments.

These financial liabilities are initially recognized at fair value less any directly attributable transaction costs. After initial recognition, these financial liabilities are subsequently measured at amortized cost using the effective interest method. Amortized cost is calculated by taking into account any discount or premium on the issue and fees that are an integral part of the effective interest rate.

As at September 30, 2024 and December 31, 2023, the Company's accrued expenses and other current liabilities (excluding statutory payable) and amounts due to related parties are classified under this category.

Reclassification of Financial Assets

The Company reclassifies its financial assets when, and only when, it changes its business model for managing those financial assets. The reclassification is applied prospectively from the first day of the first reporting period following the change in the business model (reclassification date).

For a financial asset reclassified out of the financial assets at amortized cost category to financial assets at FVPL, any gain or loss arising from the difference between the previous amortized cost of the financial asset and fair value is recognized in profit or loss.

PRIME MEDIA HOLDINGS, INC.
(A Subsidiary of RYM Business Management Corp.)

For a financial asset reclassified out of the financial assets at amortized cost category to financial assets at FVOCI, any gain or loss arising from the difference between the previous amortized cost of the financial asset and fair value is recognized in OCI.

For a financial asset reclassified out of the financial assets at FVOCI category to financial assets at amortized cost, any gain or loss previously recognized in OCI, and any difference between the new amortized cost and maturity amount, are amortized to profit or loss over the remaining life of the investment using the effective interest method. If the financial asset is subsequently impaired, any gain or loss that has been recognized in OCI is reclassified from equity to profit or loss.

For a financial asset reclassified out of the financial assets at FVOCI category to financial assets at FVPL, the financial asset continues to be measured at fair value.

Impairment of Financial Assets at Amortized Cost

The Company records an allowance for expected credit loss (ECL) based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive. The difference is then discounted at an approximation to the asset's original effective interest rate.

Derecognition of Financial Assets and Liabilities

Financial Assets. A financial asset (or where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized by the Company when:

- the right to receive cash flows from the asset has expired;
- the Company retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a “pass-through” arrangement; or
- the Company has transferred its right to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the assets, or (b) has neither transferred nor retained substantially all the risk and rewards of the assets but has transferred control over the asset.

When the Company has transferred its right to receive cash flows from an asset or has entered into a pass-through arrangement and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Company's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset, if any, is measured at the lower of original carrying amount of the asset and the maximum amount of consideration that the Company could be required to pay.

Financial Liabilities. A financial liability is derecognized when the obligation under the liability is discharged or cancelled or has expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of the new liability, and the difference in the respective carrying amount is recognized in profit or loss.

Offsetting Financial Assets and Liabilities

Financial assets and liabilities are offset, and the net amount is reported in the statements of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts

PRIME MEDIA HOLDINGS, INC.
(A Subsidiary of RYM Business Management Corp.)

and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously. This is not generally the case with master netting agreements, and the related assets and liabilities are presented gross in the statements of financial position.

Classification of Financial Instrument between Liability and Equity

A financial instrument is classified as liability if it provides for a contractual obligation to:

- Deliver cash or another financial asset to another entity;
- Exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavorable to the Company; or
- Satisfy the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of own equity shares.

If the Company does not have an unconditional right to avoid delivering cash or another financial asset to settle its contractual obligation, the obligation meets the definition of a financial liability.

Other Current Assets

This account mainly consists of creditable withholding taxes (CWT), input value-added tax (VAT) and prepayments.

CWT. CWT represents the amount withheld by the Company's customers in relation to its income. CWT can be utilized as payment for income taxes provided that these are properly supported by certificates of creditable tax withheld at source subject to the rules on Philippine income taxation. CWT is stated at estimated net realizable value.

VAT. Revenues, expenses and assets are generally recognized net of the amount of VAT, except:

- where the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the tax is recognized as part of the cost of acquisition of the asset or as part of the expense item, as applicable; and
- receivables and payables that are stated with the amount of tax included.

The net amount of VAT recoverable from the taxation authority is included as part of "Other current assets" account in the statements of financial position.

Investment in a Joint Venture

Joint arrangements represent activities where the Parent Company has joint control established by a contractual agreement. Joint control requires unanimous consent for financial and operational decisions. A joint arrangement is either a joint operation, whereby the parties have rights to the assets and obligations for the liabilities, or a joint venture, whereby the parties have rights to the net assets.

Classification of a joint arrangement as either joint operation or joint venture requires judgment.

Management's considerations include, but are not limited to, determining if the arrangement is structured through a separate vehicle and whether the legal form and contractual arrangements give the entity direct rights to the assets and obligations for the liabilities within the normal course of business. Other facts and circumstances are also assessed by management, including the entity's rights to the economic benefits of assets and its involvement and responsibility for settling liabilities associated with the arrangement.

PRIME MEDIA HOLDINGS, INC.
(A Subsidiary of RYM Business Management Corp.)

The Company accounted for its interest in Media Serbisyo Production Corp (MSPC) as a joint venture (see Note 8).

Investment in a joint venture is accounted for using the equity method. Under the equity method, the investment in a joint venture is initially recorded at cost and thereafter for the post-acquisition change in the Company's share in net assets of the joint venture. The statement of comprehensive income reflects the Company's share in the results of operations of the joint venture.

The financial statements of the joint venture are prepared for the same reporting period as the Company. Adjustments are made to bring the accounting policies in line with those of the Company.

The considerations made in determining significant influence on joint control are similar to those necessary to determine control over subsidiaries.

Impairment of Nonfinancial Assets

The Company assesses at each reporting date whether there is an indication that nonfinancial assets may be impaired when events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. If any such indication exists and if the carrying amount exceeds the estimated recoverable amount, nonfinancial assets are written down to its recoverable amount, which is the greater of fair value less cost to sell and value in use. The fair value less cost to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable and willing parties less cost of disposal. In assessing value in use, the estimated future cash flows are discounted to present value using a pretax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs. Impairment losses are recognized in profit or loss.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. In such instances, the carrying amount of the asset is increased to its recoverable amount. However, that increased amount cannot exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in profit or loss.

Equity

Capital Stock. Capital stock is measured at par value for all shares issued and outstanding.

Additional Paid-in Capital. Additional paid-in capital includes any premium received in the issuances of capital stock. Any transaction costs associated with the issuance of shares are deducted from additional paid-in capital, net of tax.

Deficit. Deficit represents the cumulative balance of the Company's results of operations.

Cumulative Fair Value Changes on Investment in a Club Share. The account comprises of unrealized fair value changes that is not recognized in profit or loss for the year in accordance with PFRS.

Revenue Recognition

Revenue is recognized to the extent that it is probable that economic benefits will flow to the Company and the amount of revenue can be measured reliably.

PRIME MEDIA HOLDINGS, INC.
(A Subsidiary of RYM Business Management Corp.)

Revenue from contracts with customers is recognized when the performance obligation in the contract has been satisfied at a point in time or over time.

The Company also assesses its revenue arrangements to determine if it is acting as a principal or as an agent. The Company has assessed that it acts as a principal in all of its revenue sources.

The following specific recognition criteria must also be met before revenue is recognized.

Interest Income. Interest income is recognized in profit or loss as it accrues, taking into account the effective yield on the asset.

Expense Recognition

Expenses constitute cost of administering the business. These costs are expensed upon receipt of goods, utilization of services, or when the expense is incurred.

Income Taxes

Current Tax. Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount is the one that has been enacted or substantively enacted at the reporting date.

Deferred Tax. Deferred tax is provided on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences. Deferred tax assets are recognized for all deductible temporary differences, carryforward benefits of any unused tax credits from the excess of minimum corporate income tax (MCIT) over the regular corporate income tax (RCIT) and any unused net operating loss carryover (NOLCO), to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and carryforward benefits of unused excess MCIT over RCIT and unused NOLCO can be utilized. Deferred tax, however, is not recognized when it arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Deferred tax is recognized in profit or loss except to the extent that it relates to a business combination, or items directly recognized in equity as OCI.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates and tax laws that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rate that has been enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities are offset, if a legally enforceable right exists to offset current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

PRIME MEDIA HOLDINGS, INC.
(A Subsidiary of RYM Business Management Corp.)

Basic and Diluted Loss per Share

The Company computes its basic loss per share by dividing net loss for the period attributable to ordinary equity holders of the Company by the weighted average number of common shares outstanding during the period.

Diluted loss per share amounts is computed in the same manner, adjusted for the diluted effect of any potential common shares. There is no such information as of September 30, 2024 and in 2023 because the Company has no dilutive potential common shares and is in a net loss position.

Segment Reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to the transactions with any of the Company's other components. The Company has only one segment which is as a holding company.

Related Parties

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence.

A related party transaction is a transfer of resources, services or obligations between a reporting entity and a related party, regardless of whether a price is charged.

Related party transactions are considered material and/or significant if these transactions amount to 10% or higher of the Company's total assets or if there are several transactions or a series of transactions over a twelve-month period with the same related party amounting to 10% or higher of the Company's total assets.

Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

Provisions are made using the best estimates of the amount required to settle the obligation and are discounted to present values using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. Changes in estimates are reflected in profit or loss in the period these arise.

Contingencies

Contingent liabilities are not recognized in financial statements. They are disclosed in the notes to financial statements unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the financial statements but are disclosed when an inflow of economic benefits is probable.

Events after the Reporting Date

Post year-end events that provide additional information about the Company's financial position at the end of reporting period (adjusting events) are reflected in the financial statements. Post year-end events that are non-adjusting are disclosed in the notes to financial statements when material.

PRIME MEDIA HOLDINGS, INC.
(A Subsidiary of RYM Business Management Corp.)

3. Significant Judgment, Accounting Estimates and Assumptions

The preparation of financial statements in accordance with PFRS requires management to exercise judgment, make estimates and assumptions that affect the amounts reported in the financial statements. The judgment and estimates used in the financial statements are based on management's evaluation of relevant facts and circumstances as at the reporting date. While the Company believes that the assumptions are reasonable and appropriate, significant differences in the actual experience or significant changes in the assumptions may materially affect the estimated amounts. Actual results could differ from such estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Judgments

In the process of applying the Company's accounting policies, management has made the following judgment, apart from those involving estimates, which have the most significant effect on the amounts recognized in the financial statements.

Classifying Financial Instruments. The Company exercises judgment in classifying a financial instrument on initial recognition either as a financial asset, a financial liability or an equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial asset, a financial liability or an equity instrument. The substance of a financial instrument, rather than its legal form, governs its classification in the statements of financial position.

The Company classified its investment in a club share as a financial asset at FVOCI (see Note 7).

Assessing the Distinction Between Joint Operation and Joint Venture. The Company determines whether a joint arrangement qualifies as a joint operation or a joint venture. In making its judgment, the Company assesses whether it has joint control and has rights to the assets, and obligations for the liabilities, relating to the arrangement or it has joint control and has rights to the net assets of the arrangement, in which case the arrangement shall be classified as a joint operation or a joint venture, respectively, as the case may be. The Company considers each arrangement separately in making its judgment.

The Company assessed that the joint arrangement qualifies as a joint venture and to be accounted using equity method in accordance with PAS 28, *Investments in Associates and Joint Ventures* (see Note 8).

Determining the Fair Value of Financial Instruments. PFRS requires certain financial assets and liabilities to be carried at fair value, which requires extensive use of accounting estimates. While significant components of fair value measurement were determined using verifiable objective evidence, the amount of changes in fair value would differ if the Company utilized different valuation methodologies. Any changes in the fair value of these financial assets would affect profit and loss and equity.

The fair value of the Company's financial assets and liabilities is disclosed in Note 16.

Evaluating the Contingencies. The Company is a party to certain lawsuits or claims arising from the ordinary course of business. However, the Company's management and legal counsel believe that eventual liabilities under these lawsuits or claims, if any, will not have a material effect on the Company's financial statements.

PRIME MEDIA HOLDINGS, INC.
(A Subsidiary of RYM Business Management Corp.)

Estimates and Assumptions

The key estimates concerning the future and other key sources of estimation uncertainty at the reporting date, that has a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

Estimating the Liabilities related to Previous Development Bank Operations. The estimated liabilities related to previous development bank operations of the Company is based on the management's best estimate of the amount expected to be incurred to settle the obligation based on the terms of the MOA.

Liabilities arising from the MOA amounted to ₱183.95 million and ₱184.04 million as at September 30, 2024 and December 31, 2023, respectively (see Note 10).

Determining Fair Value of Financial Instruments at Date of Initial Recognition. The Company determines the fair value of financial instruments based on transaction price. As at date of recognition of financial instruments as of September 30, 2024 and in 2023, the Company assessed that the fair value of the financial instruments approximates its transaction price.

Assessing the ECL on Financial Assets at Amortized Cost. The Company applies the simplified approach to its receivables and the general approach on all its other financial assets at amortized cost in measuring the ECL. The Company estimates the ECL on its receivables using a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

The Company assessed that cash in banks is deposited with reputable counterparty banks that possess good credit ratings. For related party transactions and other receivables, the Company considered the available liquid assets of the related parties and a letter of guarantee from the stockholders.

The Company assesses that a financial asset is considered credit impaired when one or more events that have a detrimental effect on the estimated future cash flows of the asset have occurred such as significant financial difficulty and cessation of operations of the debtor.

No impairment loss was recognized as at September 30, 2024 and in 2023.

The aggregate carrying amount of cash in banks, receivables (excluding advances to officers, employees and service providers), due from related parties and loans receivable amounted to ₱415.70 million and ₱421.00 million as at September 30, 2024 and December 31, 2023, respectively (see Note 4, 5 and 13).

Assessing the Impairment of Nonfinancial Assets. The Company assesses impairment on nonfinancial assets whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

The factors that the Company considers important which could trigger an impairment review include the following:

- significant underperformance relative to expected historical or projected future operating results;
- significant changes in the manner of use of the acquired assets or the strategy for overall business; or
- significant negative industry or economic trends.

PRIME MEDIA HOLDINGS, INC.
(A Subsidiary of RYM Business Management Corp.)

No impairment losses were recognized as at September 30, 2024 and in 2023.

The carrying amounts of the Company's nonfinancial assets are as follows:

	Note	September 30, 2024 (Unaudited)	December 31, 2023 (Audited)
Advances to officers, employees and service providers	5	₱9,902	₱292,919

Investment in a joint venture	8	3,257,154	3,257,154
Property and equipment	9	422,496	501,600

Assessing the Realizability of Deferred Tax Assets. The Company reviews its deferred tax assets at each reporting date and reduces the carrying amount to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized in the future. The amount of deferred income tax assets that are recognized is based upon the likely timing and level of future taxable profits together with future tax planning strategies to which the deferred income tax assets can be utilized.

The Company's unrecognized deferred tax assets amounted to **₱21.1 million** as at September 30, 2024 and December 31, 2023 (see Note 12). Management believes that there will be no sufficient future taxable profits against which these deferred tax assets can be utilized.

Statutory payables	105,855	18,599
	₱196,598,940	₱197,078,691

Liabilities arising from the MOA pertain mainly to the estimated transfer taxes and registration fees related to the transfer of assets from the Company's previous development bank operations to BDO and PDIC and other related liabilities, primarily from unremitted collection of assigned receivables and sale of foreclosed properties for the account of PDIC (see Note 1). Additions to the liabilities arising from the MOA as at September 30, 2024 and in 2023 amounted to nil. The Company also paid ₱3.7 million in 2023 for processing of transfer of titles.

Dividends payable pertain to the Company's dividend for cumulative, nonparticipating, nonvoting, redeemable and convertible preferred stock that were declared prior to the Company's incurrence of deficit.

Accrued expenses pertain to accrual professional fees and association dues, among others. These are normally settled in the next financial year.

Statutory payable is normally settled within the following month.

In 2021, the Company reversed long-outstanding payables aggregating ₱9.2 million related to rental deposits not claimed by previous tenants and other payables not expected to be settled or discharged. The reversal was subsequently approved by the Company's BOD on April 12, 2022.

	864,664,876	₱864,664,876	864,664,876	₱864,664,876

The preferred stock Series A and B has the following salient features:

- a. Cumulative, nonparticipating, nonvoting, redeemable and convertible at the option of the Company.
- b. Cash dividend rate initially at 4.50% per annum based on par value, which shall be automatically adjusted to 11.00% per annum upon full payment of the subscription price.
- c. The Company may, at any time at its option, wholly or partially redeem the outstanding preferred stock plus accrued dividends thereon. When such a call for redemption is made, the holders of the preferred stock may opt to convert the preferred stock to common stock.

As discussed in Note 1, in 2022, the BOD and shareholders approved the amendment of the AOI of the Company to reflect the increase, declassification of preferred shares and common shares into one class of common shares and deletion of all provisions relating to the preferred shares. As of April 11, 2023, the application for the additional amendments of Articles of Incorporation is pending approval from the SEC.

Other planned amendments are also discussed in Note 1.

As discussed in Note 1, the Company, issued additional 150,000,000 common shares at ₱2.70 a share equivalent to ₱405.0 million and paid for in cash, resulting to additional paid-in capital amounting to ₱255.0 million. The documentary stamp tax of ₱1.5 million paid in relation to stock issuance was recognized as deduction to additional paid-in capital, resulting to a balance of ₱253.5 million as at September 30, 2024 and December 31, 2023. The shares were issued to Angel Maple Properties, Inc. (now known as Valiant Consolidated Resources Inc.) for 125,000,000 unissued common shares and (ii) Cymac Holdings Corporation for 25,000,000 unissued common shares.

PRIME MEDIA HOLDINGS, INC.
(A Subsidiary of RYM Business Management Corp.)

As at September 30, 2024 and December 31, 2023, there is no accrued and unpaid preferential dividend.

12. Income Tax

The Company has no current income tax in 2023 as it is in a gross and taxable loss position. The provision for current income tax in 2022 and 2021 represents MCIT.

On March 26, 2021, the “Corporate Recovery and Tax Incentives for Enterprise” (CREATE) was approved and signed into law by the country’s President. Under the CREATE, the RCIT of domestic corporations was revised from 30% to 25% or 20% depending on the amount of total assets or total amount of taxable income. In addition, the MCIT was changed from 2% to 1% of gross income for a period of three years. The changes in the income tax rates retrospectively became effective beginning July 1, 2020. The impact of change in 2020 was applied in 2021.

The rate of MCIT for domestic corporations shall revert to two percent (2%) based on the gross income starting July 1, 2023. The impact of the revision was accounted for in 2023.

The income tax rates used in preparing the financial statements are 25% and 20% for RCIT in 2023 and 2022, respectively, and 1.5% and 1% for MCIT in 2023 and 2022, respectively. The Company used 25% regular tax rate in 2023 as the total assets breached the threshold allowing the Company to use the lower regular tax rate of 20%. As a result, unrecognized deferred tax assets which was previously measured at 20% are now measured using the 25%.

The reconciliation of benefit from current income tax at the statutory income tax rate to the provision for current income tax shown in the statements of comprehensive income are as follows:

	2023

Terms and Conditions of Transactions with Related Parties

Loans Receivable to Entities with Common Stockholders

Loans Receivable from Philippine Collective Media (PCMC)

In August 2023, the Company granted an unsecured loan to PCMC, a related party under common key management, for the payments of its liabilities, acquisition of equipment, operations, and expansion of its business. The loan has no interest in the first year and 7.5% interest on succeeding years. The loan is to be paid within five years and can be paid in whole or in part at any time without penalty.

Loans Receivable from Marcventures Mining and Development Corporation (MMDC)

In 2018, the Company entered into an unsecured loan agreement with MMDC, a related party under common control, at 10% a year. The loan is due and demandable.

As at December 31, 2021, the Company has loans receivable amounting to ₱26.0 million. The Company fully collected the outstanding loan receivable in 2022.

Management has assessed that the outstanding interest receivable on the loan receivable was impaired in 2021, thus the Company recognized an impairment loss amounting to ₱5.5 million in the statement of comprehensive income and wrote-off the interest receivables in 2022. This was approved by the BOD on April 11, 2023. The interest from the loan receivable for 2021 was waived and no interest income was recognized for the year. This was approved by the BOD on April 12, 2022.

Rent Receivables

On February 8, 2018, the Company entered into an operating lease agreement with MMDC for the lease of transportation equipment until October 7, 2019. In 2022, the Company sold the leased transportation equipment to MMDC for ₱200,746. The gain on disposal of equipment amounted to ₱43,046 (see Note 9).

Due to and from Related Parties

Outstanding balances are unsecured, noninterest-bearing, collectible or payable in cash upon demand. The Company has no provision for impairment loss relating to the amounts due from related parties as at September 30, 2024 and December 31, 2023. This assessment is undertaken at each reporting date by taking into consideration the financial position of the related parties and the market at which the related parties operate.

Compensation of Key Management Personnel

There is no compensation of key management personnel for the period ended September 30, 2024 and for the year ended December 31, 2023. The Company's accounting and administrative functions are provided by a related party at no cost to the Company.

14. Commitments and Contingencies

- a. In the normal course of its prior operations, the Company has outstanding commitments, pending litigations and contingent liabilities which are not reflected in the financial statements. Management believes that the ultimate outcome of these matters will not have a material impact in the financial statements.

PRIME MEDIA HOLDINGS, INC.
(A Subsidiary of RYM Business Management Corp.)

- b. As discussed in Note 1, under the MOA dated September 12, 2002 between the Company, BDO and PDIC, the Company agreed to transfer its assets and liabilities from its development bank operations to BDO and PDIC. Under the terms of the MOA, the Company holds BDO free from any contingent claims, labor and minority issues and concerns arising from related assets and liabilities still managed by the Company until these are assumed by BDO.

The Company has accounted for separately, assets from its development bank operations pursuant to the MOA. It still has in its possession titles of real estate properties from its development bank operations with an aggregate value of ₱723.5 million as at September 30, 2024 and December 31, 2023. Moreover, the Company has cash in its custody of ₱13.9 million as at September 30, 2024 and December 31, 2023 arising from the proceeds of the sale of one of the properties.

15. Basic/Diluted Earnings (Loss) Per Share

The basic loss per share is computed as follows:

	September 30, 2024 (Unaudited)	December 31, 2023 (Audited)
Net loss	(₱9,827,566)	(₱30,308,471)
Less dividend rights of preferred stockholders for the period	1,186,253	1,581,671
Income (loss) attributable to common stockholders	(11,013,819)	(31,890,142)
Divided by weighted average number of common stock	850,298,616	850,298,616
Basic loss per share	(₱0.013)	(₱0.038)

The convertible feature of the Company's preferred stock has potential antidilutive effect. The Company has no diluted income per share for the periods ended September 30, 2024 and December 31, 2023.

16. Financial Risk Management Objectives and Policies

The Company's principal financial instruments comprise of cash, receivables (excluding advances to officers, employees and service providers), due from related parties, investment in a club share, accrued expenses and other current liabilities (excluding statutory payable) and due to a related party.

The main risks arising from the financial instruments of the Company are credit risk, liquidity risk and market risk. The BOD reviews and approves policies for managing the risks.

Credit Risk

Credit risk is the risk of loss that may arise on outstanding financial instruments should a counterparty default on its obligation. The Company's exposure to credit risk arises primarily from cash in banks, receivables (excluding advances to officers, employees and service providers) and due from related parties and investment in a club share. The carrying amounts of the financial assets represent the Company's gross maximum exposure to credit risk in relation to financial assets.

The Company estimates the ECL on its receivables using a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

Credit Quality of Financial Assets. The credit quality of the Company's financial assets is being managed by using internal credit ratings such as high grade and standard grade.

High grade - pertains to a counterparty who is not expected by the Company to default in settling its obligations, thus credit risk exposure is minimal.

Standard grade - include financial assets that are considered moderately realizable and some accounts which would require some reminder follow-ups to obtain settlement from the counterparty.

The Company has assessed the credit quality of financial assets that are neither past due nor impaired as a high grade.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to settle or meet its financial obligations when they fall due. The Company aims to maintain flexibility by maintaining sufficient cash to meet all foreseeable cash needs.

The Company also maintains a balance between continuity of funding and flexibility. The policy of the Company is to make the first exhaust lines available from affiliated companies before local bank lines are availed of. The Company seeks to manage its liquid funds through cash planning on a weekly basis. The Company uses historical figures and experiences and forecasts from its cash receipts and disbursements. As part of its liquidity risk management, the Company regularly evaluates its projected and actual cash flows.

As at September 30, 2024 and December 31, 2023, accrued expenses and other current liabilities (excluding statutory payable) and due to related parties are generally due and demandable.

Market Risk

Interest Rate Risk

Interest rate risk is the risk that future cash flows from a financial instrument (cash flow interest rate risk) or its fair value (fair value interest rate risk) will fluctuate because of changes in market interest rates. The Company's loans receivable is subject to fixed interest rates and are exposed to fair value interest rate risk.

As at September 30, 2024 and December 31, 2023, the Company's loan receivable amounting ₱368.0 million and ₱373.0 million, respectively, has no repricing arrangement and is exposed to fair value interest risk. As at September 30, 2024, the Company's exposure to changes in interest rates is not significant.

Equity Price Risk

Equity price risk relating to the fair value of quoted club share would decrease as the result of the adverse changes in the quoted club share brought about by both rational and irrational market forces. The market risk of the Company arises mainly from its investments in a club share measured at FVOCI. Impact of fair value changes amounted to ₱1.7 million on the investment as at September 30, 2024 and December 31, 2023.

Due to a related party	13,880,000	13,880,000	13,880,000	13,880,000
	₱210,373,085	₱210,373,085	₱210,940,092	₱210,940,092

*Excluding statutory payables amounting to ₱105,855 and ₱18,598 as at September 30, 2024 and December 31, 2023, respectively.

Current Financial Assets and Liabilities. The carrying amounts of cash, receivables (excluding advances from officers, employees and service providers), due from related parties and accrued expenses and other current liabilities (excluding statutory payable) and due to related parties approximate their fair values due to the short-term and demand nature and maturities of the transactions. The fair value measurement of current financial assets and liabilities is classified as Level 3 (Significant unobservable inputs).

Loans Receivable. The fair value of loans receivable is based on the discounted value of future cash flows using the prevailing interest rates. The discount rate used is 6.25% in 2023.

Investment in a Club Share. The fair value of this financial asset was determined based on the current selling price to third parties. The fair value measurement of club share designated as FVOCI is classified as Level 1 in which the inputs are based on quoted prices in active markets.

There has been no transfer between levels of fair value hierarchy as at September 30, 2024 and December 31, 2023.

Capital Management

The primary objective of the Company's capital management is to safeguard the Company's ability to continue its operations as a going concern and to maximize shareholder value. The Company manages its capital structure and makes adjustments to it, when there are changes in the economic conditions. To maintain or adjust the capital structure, the Company may adjust dividend payment to shareholders, return capital to shareholders, or issue new stock. No changes were made in the objectives, policies or processes as at September 30, 2024 and December 31, 2023. The Company is not subject to externally imposed capital requirements.
